Picking Wedlock:

The Portable Nietzsche Friedrich Nietzsche, 1977-01-27 A captivating collection of Friedrich Nietzsche's seminal works from his provocative musings on truth and morality to his profound exploration of human existence. In this volume, one may very conveniently have a rich review of one of the most sensitive, passionate, and misunderstood writers in Western or any literature. Newsweek: Few writers in any age were so full of ideas. Walter Kaufmann, from the Introduction: The works of Friedrich Nietzsche have fascinated readers around the world ever since the publication of his first book more than a hundred years ago; yet few writers have been so consistently misinterpreted. The Portable Nietzsche includes Walter Kaufmann's definitive translations of the complete and unabridged texts of Nietzsche's four major works: *Twilight of the Idols*, *The Antichrist*, *Nietzsche Contra Wagner*, and *Thus Spoke Zarathustra*. In addition, Kaufmann brings together selections from his other books, notes, and letters to give a full picture of Nietzsche's development, versatility, and inexhaustibility. Penguin Classics is the leading publisher of classic literature in the English-speaking world, representing a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

The Contest for Knowledge Maria Gaetana Agnesi, Diamante Medaglia Faini, Aretafila Savini de' Rossi, Accademia de' Ricovrati, 2007-11-01 At a time when women were generally excluded from scholarly discourse in the intellectual centers of Europe, four extraordinary female letterates proved their parity as they lectured in prominent scientific and literary academies and published in respected journals. During the Italian Enlightenment, Maria Gaetana Agnesi, Giuseppa Eleonora Barbapiccola, Diamante Medaglia Faini, and Aretafila Savini de' Rossi were afforded unprecedented deference in academic debates and epitomized the increasing ability of women to influence public discourse. *The Contest for Knowledge* reveals how these four women used the methods and themes of their male counterparts to add their voices to the vigorous and prolific debate over the education of women during the eighteenth century. In the texts gathered here, the women discuss the issues they themselves thought most urgent for the equality of women in Italian society specifically and in European culture more broadly. Their thoughts on this important subject reveal how crucial the eighteenth century was in the long history of debates about women in the academy.

Aesthetic Transformations Thomas Jovanovski, 2008 In this provocative work, Thomas Jovanovski presents a contrasting interpretation to the postmodernist and feminist reading of Nietzsche. As Jovanovski maintains, Nietzsche's written thought is above all a sustained endeavor aimed at negating and superseding the primarily Socratic principles of Western ontology with a new table of aesthetic ethics—ethics that originate from the Dionysian insight of Aeschylean tragedy. Just as the Platonic Socrates perceived a pressing need for and succeeded in establishing a new world historical ethic and aesthetic direction grounded in reason, science, and optimism, so does Nietzsche regard the rebirth of an old tragic mythos as the vehicle toward a cultural, political, and religious metamorphosis of

the West However Jovanovski contends that Nietzsche does not advocate such a radical social turning as an end in itself but as only the most consequential prerequisite to realizing the culminating object of his historical philosophizing the phenomenal appearance of the *bermensch* *Memoirs of the Life of Henriette-Sylvie de Moliere* Madame de Villedieu, 2004-05 Known as Madame de Villedieu Marie Catherine Desjardins ca 1640-83 was a prolific writer who played an important role in the evolution of the early modern French novel One of the earliest women to write for a living she defied cultural convention by becoming an innovator and appealing to popular tastes through fiction drama and poetry *Memoirs of the Life of Henriette Sylvie de Moliere* a semi autobiographical novel portrays an enterprising woman who writes the story of her life a complex tale that runs counter to social expectations and novelistic conventions A striking work the story skillfully mixes real events from the author's life with fictional adventures At a time when few women published Villedieu's *Memoirs* is a significant achievement in creating a voice for the early modern woman writer Produced while the French novel form was still in its infancy it should be welcomed by any scholar of women's writing or the early development of the novel

Democratic Anxieties Mario Feit, 2011-03-15 *Democratic Anxieties* Same Sex Marriage Death and Citizenship proceeds from the surprising parallels between straight and gay opponents of same sex marriage With their apocalyptic rhetoric they inadvertently point to a frequently neglected existential dimension of democratic citizenship *Democratic Anxieties* argues that we must pay attention to the existential significance of democratic citizenship because otherwise we end up with anxious democracy a democracy that cannot fully embrace pluralism especially when the connections between sex death and citizenship are at stake This book pursues a less anxious conception of democratic citizenship in chapters on Jean Jacques Rousseau Hannah Arendt and Friedrich Nietzsche Feit reveals how Rousseau diminishes democratic citizenship by linking it to existential consolation via sexual reproduction He interprets Arendt as a queer theorist because she rejects the heteronormative pursuit of reproductive immortality Yet the hope for immortality persists within Arendt's conception of political action which delimits its democratic potential Feit argues that Nietzsche resists both Rousseau's political idealization of heterosexuality and Arendt's anxious alternative Calling for an affirmation of death Nietzsche creatively reimagines sexual as well as cultural reproduction that pluralizes democratic citizenship The resulting more existentially aware democratic politics not only contributes to lesbian and gay equality but is also critical in a post September 11 world
