*Literary Magazine Review* ,1999      *Horizons West* Jim Kitses,2019-07-25 When first published in 1969 *Horizons West* was immediately recognised as the definitive critical account of the Western film and some of its key directors This greatly expanded new edition is like the original written in a graceful penetrating and absorbingly readable style It provides definitive critical analysis of the six greatest film makers of the Western genre John Ford Anthony Mann Budd Boetticher Sam Peckinpah Sergio Leone and Clint Eastwood And it offers illuminating accounts of such classic Westerns as *The Searchers* *Pat Garrett and Billy the Kid* *Once Upon a Time in the West* *Shane* and many more Among the completely new material in this edition is Kitses s magisterial account of the work of the greatest of Western directors John Ford Kitses also assesses how the Western has been challenged by revisionist historical accounts of the West and the Western and by movement such as feminism postmodernism multiculturalism and psychoanalysis The product of a lifetime s labour and love *Horizons West* is a landmark of scholarship and interpretation devoted to what is for many Hollywood s signature genre It provides a compelling account of the powerful mythology of America s past as forged by Western films and the men who made them      **Design & Applied Arts Index** ,2000      **Air University Library Index to Military Periodicals** ,1999

*Serials in the British Library* ,2001      *Covertaction Quarterly* ,1999      **APAIS 1999: Australian public affairs information service** ,      **Bibliography of Sources on the Region of Former Yugoslavia** Rusko Matulić,1998 In this second volume Rusko Matulic continues to formulate a comprehensive bibliography of primarily published sources relating to the history languages literature politics government religion and social sciences of former Yugoslavia including bibliographical materials on expatriates      **Representing Ebola** Marouf A. Hasian Jr.,2016-07-14 *Representing Ebola* provides readers with a critical legal analysis of the recent West African Ebola Outbreak The author argues that a review of the scientific military legal economic political and mediated coverage of this latest outbreak highlights the ways that organizations like the World Health Organization or Doctors Without Borders want to conceptualize the importance of rapid emergence from the West during African Ebola epidemics The author concludes that while the U S military and other organizations prided themselves on their belated responses to this outbreak oftentimes journalists scientists and others overlooked the contributions that were made by contract tracers and indigenous public health workers Sadly the 2013 2015 West African outbreak took the lives of thousands of individuals and the author contends that this contributed to sensationalist ways of representing local burial and food habits The book concludes by noting that while many West African leaders appreciated the billions of dollars of promised aid that would flow toward this region in the wake of the Ebola outbreak real health security measures have to involve longer term infrastructural changes Talk of how Westerners rescued the West Africans need to be augmented with more nuanced ways of thinking about how many of those who actually battled Ebola need to become part of future conversations regarding everything from theories of aerial transmission to the steps that

need to be taken during the first few weeks of recorded outbreaks      **SRDS Consumer Magazine Advertising Source**
