Diana E. S. Dunn

Queens Concubines And Dowagers:

Queens, Concubines, and Dowagers Pauline Stafford, 1983 **Queens, Concubines and Dowagers** Pauline Stafford, 1983 **Early English Queens, 650-850** Stefany Wragg, 2022-06-07 This book offers the first dedicated and comprehensive examination of the lives of nearly thirty women known to occupy the office of queen in the English kingdoms between 650 and 850 The queens of early England are often shadowy figures in the historical record beset by numerous issues which have largely confined them to the margins of history Through careful analysis the volume presents a ground breaking appraisal of the role of queens in early England and how their actions and identities shaped their practice of queenship Organised thematically it offers an overview of queens in many different roles such as agents of Christianity mothers and peace weavers From high profile queens such as thelthryth of Ely and Cynethryth of Mercia to the shadowy Leofrun of East Anglia and the nameless queen of Anna of East Anglia the book engages with sources to advance fuller narratives about even the most obscure queens of the era Aided by resources such as genealogical tables **Early English Queens 650 850** is an ideal resource for students and scholars at all levels as well general readers interested in the lives of queens and early English history **Women in the Piast Dynasty** Grzegorz Pac, 2022-03-07 This book analyses the role of women in the Polish Piast dynasty from c 965 to c 1144 It discusses gender expectations and the literary topoi employed to describe rulers wives and daughters as well as showing their importance in religious donations the creation of dynastic memory and naming patterns as well as examining Piast women s involvement in female monasticism Pac takes a comparative approach to these themes analysing Polish sources alongside sources from other areas of early and high medieval Europe *War and Society in Medieval and Early Modern Britain* Diana E. S. Dunn, 2000 Nine historians examine three English civil wars that during King Stephen s reign the Wars of the Roses and that of the 17th century Their concern is with the interaction of war and society rather than with details of individual campaigns and battles They place the conflicts within the wider European context and developments in warfare on the continent Distributed in the US by ISBS c Book News Inc A Brief History of the Anglo-Saxons Geoffrey Hindley, 2013-02-07 Starting AD 400 around the time of their invasion of England and running through to the 1100s the Aftermath historian Geoffrey Hindley shows the Anglo Saxons as formative in the history not only of England but also of Europe The society inspired by the warrior world of the Old English poem Beowulf saw England become the world s first nation state and Europe s first country to conduct affairs in its own language and Bede and Boniface of Wessex establish the dating convention we still use today Including all the latest research this is a fascinating assessment of a vital historical period *Frau--Realität und Utopie* Christa Köppel, Ruth Sommerauer, 1984 Frau Gesellschaft Queens Consort Lisa Hilton, 2010-12-30 England from the perspective of its consort queens a distaff history of the nation from 1066 to 1503 England s medieval queens were elemental in shaping the history of the nation In an age where all politics were family politics dynastic marriages placed English queens at the very centre of power the king s bed

From Matilda of Flanders the Conqueror's queen to Elizabeth of York the first Tudor consort England's queens fashioned the nature of monarchy and influenced the direction of the state. Occupying a unique position in the mercurial often violent world of medieval statecraft English queens had to negotiate a role that combined tremendous influence with terrifying vulnerability. Lisa Hilton's meticulously researched new book explores the lives of the twenty women who were crowned queen between 1066 and 1503 reconsidering the fictions surrounding well known figures like Eleanor of Aquitaine and illuminating the lives of forgotten figures such as Adeliza of Louvain. War adultery witchcraft child abuse murder and occasionally even love formed English queenship but so too did patronage learning and fashion. Lisa Hilton considers the evolution of the queenly office alongside intimate portraits of the individual women dispelling the myth that medieval brides were no more than diplomatic pawns. *Debating Women, Politics, and Power in Early Modern Europe* Sharon L.

Jansen, 2008-03-15 The sixteenth century was an age of politically powerful women. Queens acting in their own right and female regents acting on behalf of their male relatives governed much of Western Europe. Yet even as women ruled and ruled effectively their right to do so was hotly contested. Men's voices have long dominated this debate but the recovery of texts by women now allows their voices long silenced to be heard once again. *Debating Women Politics and Power in Early Modern Europe* is a study of texts and textual production in the construction of gender society and politics in the early modern period. Jansen explores the gynecocracy debate and the larger humanist response to the challenge posed by female sovereignty.

Witwen und Waisen im Römischen Reich: Witwen und Waisen im frühen Christentum Jens-Uwe Krause, 1994

Inzestverbot und Gesetzgebung Karl Ubl, 2008 Das Verbot von Verwandtenehen Inzest stand vom 6 bis ins 11 Jahrhundert im Mittelpunkt der Gesetzgebung. Kaiser und Könige Bischöfe und Päpste erließen immer wieder neue Regelungen zum Inzestdelikt und stellten diese Bestimmungen häufig an die Spitze von Gesetzestexten und Kodifikationen. Die Reichweite der verbotenen Verwandten wurde dabei stetig ausgedehnt. Im 11. Jahrhundert war es kaum möglich Ehen zu schließen die nicht aufgrund des Inzestverbots angefochten werden konnten. Die Sorge um die Gültigkeit von Eheschließungen beschäftigte insbesondere den Adel da mit der Illegitimität der Kinder der soziale Status auf das Spiel gesetzt wurde. Bei diesem einzigartigen Phänomen wird in der historischen ethnologischen und soziologischen Forschung eine intensive Diskussion geführt. Dieses Buch zeichnet die radikale Ausdehnung der Ehehindernisse erstmals epochenübergreifend und transkulturell nach. Es wird die These aufgestellt dass die Entstehungsbedingungen dieser Obsession im Funktionswandel von Gesetzgebung und in den Reaktionen von Königen Kaisern und Bischöfen auf den Verlust antiker Staatlichkeit zu suchen sind. Die ausgedehnten Inzestverbote sollten die Etablierung überregionaler Heiratsmärkte herbeiführen und dadurch der Integration von Großreichen dienen. *Ludwig der Fromme* Egon Boshof, 1996 *Karl Martell in seiner Zeit* Jörg Jarnut, Ulrich Nonn, Michael

Richter, 1994 **Der Weg in die Geschichte** Johannes Fried, 1994 *Monographien zur Geschichte des Mittelalters*, 1995

IASL, 1991 **Das Spätmittelalterliche Königtum im europäischen Vergleich** Reinhard Schneider, 1987
