Quest For Meaning Friends Of Wisdom From Plato To Levinas:

Von der Formel zum Sein Raymond Jahae, 2018-02-01 Das Buch geht dem Problem der Herausforderung des Wahrheitsanspruchs des katholischen Glaubens durch die modernen Naturwissenschaften nach. Einem Abriss der Geschichte des Verhältnisses zwischen kirchlichem Glauben und rationalem Naturverständnis seit der Antike folgt die Analyse der Art und Weise, wie sich dieses bei vier zeitgenössischen Autoren M. Heller, H. D. Mutschler, T. Nagel und B. Weissmahr darstellt. Auf dieser Grundlage schließt sich die systematische Untersuchung des Problems an mit der Schlussfolgerung, dass die Ergebnisse der naturwissenschaftlichen Forschung die Glaubenslehre nicht bereichern. Zum Verständnis ihrer Aussagen über Gott und die Schöpfung bietet sich die metaphysische Besinnung auf die Möglichkeitbedingungen der Existenz des weltlichen Seienden an.

The Quest for Meaning Adriaan Theodoor Peperzak, Adriaan Peperzak has for many years explored the connections between philosophy, ethics, religion and human experience. An expert on Hegel, Heidegger and Levinas, he here offers a gathering of influences on his own work as guides to uses of philosophy in our search for sense and meaning.

Timing and Temporality in Islamic Philosophy and Phenomenology of Life Anna-Teresa Tymieniecka, 2007-09-19 From time immemorial, concern with timing of life has been crucial for the regulation of human praxis as well as for the philosophical quest to understand existence by seeking its meaning. The two used to inform each other until modernity when they parted. In spite of the extensive progress in manipulating change and motion and of the abundance of metaphysical attempts to enlighten human beings about their fate, the puzzling nature of temporality and timing of reality remains controversial. The present collection of studies seeks a new answer by initiating a novel investigation informed by the ancient wisdom of the Greco-Arabic Islamic sources and inheritance on the one side and the contemporary discernment of Occidental phenomenology of life on the other in a common dialogical effort to unravel this great enigma of existence. Papers by Anna Teresa Tymieniecka, William C. Chittick, Reza Akbarian, Daniela Verducci, Michael F. Andrews, Seyyed Mohammed Khamenei, Nader El Bizri, Mehdi Aminrazavi, Massimo Durante, Abdul Rahim Afaki, Maria Chiara Teloni, A. L. Samian, Kathleen Haney, Jad Hatem, Robert J. Dobie, Michel Dion.

The Challenge of God Colby Dickinson, Hugh Miller, Kathleen McNutt, 2020-01-23 In view of the double vocative that characterizes the relation of Creator to creature, this book offers critiques of modern and postmodern philosophy for the ways in which they have separated philosophy, theology and spirituality. This collection examines the complicated relationship of God to Being and the meaning of Revelation as well as highlighting the context and the role of the Spiritual Exercises of Ignatius Loyola. Discussions include the Catholic Principle and its relevance in contemporary times and Christian epic visionaries such as Dante, Milton, Blake and Joyce, providing scholars a forum to debate their theological identity and its meaning for future studies. This volume contributes a unique engagement from many perspectives with the Catholic intellectual tradition in its philosophical, theological, spiritual, literary and artistic dimensions.

The Quest For Meaning Adriaan Peperzak, 2003 One of our most distinguished thinkers, Adriaan

Peperzak has masterfully explored the connections between philosophy ethics religion and the social and historical contexts of human experience He offers a personal gathering of influences on his own work as guides to the uses of philosophy in our search for sense and meaning In concise direct and deeply felt chapters Peperzak moves from Plato Plotinus and the Early Christian theologians to Anselm Bonaventure Descartes Pascal Leibniz Hegel and Levinas Throughout these carefully linked essays he touches on the fundamental ideas from reason and faith to freedom and tradition that inform the questions his work has consistently addressed most specifically those concerning philosophy as a practice

Trust: Who Or What Might Support Us? Adriaan T. Peperzak, 2013-01-02 Without trust in other persons social connections a host of natural phenomena and events cultural symbols and structures historical traditions and religious or quasi religious interpretation no human life is possible What is trust and how does it unfold in the various dimensions that compose human existence in a world of exhilarating splendor and incomprehensible horror

Emmanuel Levinas' Conceptual Affinities with Liberation Theology Alain Mayama, 2010 Emmanuel Levinas Conceptual Affinities with Liberation Theology analyzes Levinas work in relation to two important liberation theologians Gustavo Guti rrez and Jon Sobrino whose scholarship like his needs to be brought into greater contemporary debate about the subject s encounter with the other More specifically this book argues that for Levinas Guti rrez and Sobrino commitment to the neighbor is the necessary context for understanding God They posit the human other as the possibility of the subject s subjectivity To be human is to act with love toward one s neighbor Thus the author articulates the possibility of reading Levinas philosophy as a revalidation of one of the truths of Christianity the concern for the humanity of every human person as expressed in Christian theology in general and liberation theology in particular In order to show the relevance of Levinas philosophy for Christian theology in general the author discusses three Christian scholars Enrique Dussel Jean Luc Marion and Michael Purcell Although they challenge some aspects of Levinas philosophy they nevertheless see its significance for Christian theological anthropology The discussion concludes by proposing Levinas philosophy and liberation theology s turn to the neighbor as significant for addressing contemporary socio political and ethnic conflicts in sub Saharan Africa

Subjektivität und Anerkennung Barbara Merker, Georg Mohr, Michael Quante, 2004 Seit einigen Jahren l sst sich sowohl in der theoretischen als auch in der praktischen Philosophie ein verst rktes Interesse an Hegel beobachten In der Erkenntnistheorie Philosophie des Geistes Ethik Sozial und Rechtsphilosophie hat Hegel sich inzwischen gerade auch im post analytischen Kontext durchgesetzt Dabei richtet sich das Interesse nicht nur auf den Klassiker der Ideengeschichte sondern vor allem auch auf aktualisierbare systematische Ertr ge seines Werks Allerdings gelten nach wie vor seine Texte als schwer verst ndlich seine Terminologie als unzug nglich und die metaphysische Gesamtanlage seines Systems teilweise sogar als obskur Doch die dagegen unternommene metaphysische Bereinigung seines Systems in der neueren konstruktiven Hegel Aneignung droht nicht selten auf Kosten selbst zentraler Gehalte seiner Philosophie zu gehen Der Preis der Aktualisierung Hegels sollte aber nicht eine

Trivialisierung seiner Gedanken sein mit der deren Potenzial von vornherein preisgegeben würde Die Zielsetzung des vorliegenden Bandes ist es anhand der für Hegels Philosophie grundlegenden Begriffe der Subjektivität und der Anerkennung sowohl die metaphysischen Grundlagen seines Systems als auch das systematisch relevante Potenzial seiner Philosophie zu verdeutlichen und einer kritischen Bewertung zugänglich zu machen

Paths Not Taken Paul R. Hinlicky, 2009-08-13 In this book Paul Hinlicky suggests that to the detriment of the church as a whole Martin Luther's legacy did not unfold as he himself would have hoped or expected *Paths Not Taken* analyzes the unhappy fate of theology in the tradition of Luther through the pivotal early modern theological philosopher Gottfried Leibniz Through this lens Hinlicky shows how the twofold intention of reforming the Church according to the gospel and providing a Christian philosophy of culture for a renewed Christendom diverged along the way In his conclusion Hinlicky considers three outstanding contemporary representatives of theology in Luther's tradition Pannenberg Jüngel and Jenson and settles on a path to be taken by Lutheran theology after Christendom and after modernity

Fundamente der Ethik Klaus Düsing, 2005 In die Pluralität und Unübersichtlichkeit der zahlreichen Ethik-Ansätze bringt Düsing Ordnung durch seine Klassifizierung grundlegender Ethik-Typen in Geschichte und Gegenwart Ausgehend von seiner Theorie der Selbstbewusstseinsmodelle entwickelt der Autor ein ethisches Prinzipiengefüge in dem eine ideale ethische Gemeinschaft rein sich selbst bestimmender Personen entworfen wird Er zeigt in Auseinandersetzung mit neueren und neuesten Ethik-Ansätzen wie die grundlegenden Realisierungsgebiete der Ethik von dieser Konzeption geprägt werden und gibt Anregungen zu Anwendungsproblemen
