The Philosopher's "I" J. Lenore Wright, 2012-02-01 This book examines philosophers autobiographies as a genre of philosophical writing Author J Lenore Wright focuses her attention on five philosophical autobiographies Augustine s Confessions Descartes Meditations Rousseau s The Confessions Nietzsche s Ecce Homo and Hazel Barnes s The Story I Tell Myself In the context of first person narration she shows how the philosophers in question turn their attention inward and unleash their analytical rigor on themselves Wright argues that philosophical autobiography makes philosophical analysis necessary and that one cannot unfold without the other Her distinction between the ontological and rhetorical dimensions of the self creates a rich middle ground in which questions of essence and identity bear upon existence *The Journal of Psychoanalytic Anthropology* ,1987 *Process Studies* ,1983 Ultimate Reality and Meaning ,1984 **The Hemingway Review** ,2007 *Comprehensive Psychiatric Nursing* Judith Haber,1997 This outstanding text and reference emphasizes the seamless continuity of psychiatric care as well as the variety of settings in which it is now provided As always your students get current and comprehensive information that s presented in a clear accessible visually stimulating format and is now more clinically relevant than ever For example the psychobiological bases of mental disorders and psychopharmacological interventions are now featured in a new chapter depicted in two exciting full color inserts and integrated throughout the book **Reconciliation in India** Kuncheria Pathil,1983 **The Second International Interdisciplinary Qualitative Health Research Conference** ,1994 **L'Esprit créateur** ,1981 **Quest** Sarah Cirese,1977 Inter-American Economic Affairs Simon Gabriel Hanson,1980 **Good People** Anthony Tjan,2017-04-25 Good people are your organization s most critical asset But what does it really mean to be good Leaders love to say that any company is only as good as its people but tend to evaluate candidates and employees more by their measurable accomplishments than by their softer qualities like integrity compassion and other values Bestselling author Anthony Tjan is leading a movement to change the way we think about goodness so that we can become better judges of people and create more goodness in ourselves in others and in our organizations Tjan argues that while competence is necessary real goodness must also encompass values a fantastic r sum can never compensate for mediocre character In Good People he provides a clear language to discuss goodness redefining it as a lifelong proactive commitment that like any skill can be exercised honed and taught When leaders prioritize goodness in themselves and in others they can create lasting cultures and tremendous value Drawing from his own experiences as an entrepreneur and venture capitalist Tjan also taps into the wisdom of his relationships and interviews with extraordinary innovators executives artists academics teachers and role models from all disciplines and walks of life who embody his vision The cases and profiles shared include Harvard Business School Dean Nitin Nohria who has called for balancing leadership of competency with leadership of character Supreme Court Justice Sonia Sotomayor who has never forgotten her roots and shows profound kindness to her staff and clerks Hollywood talent manager Shep Gordon who has

counseled his clients on the importance of generosity and gratitude legendary venture capitalist Henry McCance whose success proves that humbly ceding the spotlight to others makes room for their greatness and master jazz musician Clark Terry who devotedly mentored the young blind pianist Justin Kauflin Packed with practical yet often surprising advice Good People establishes a new language and framework you can use to evaluate develop and lead with goodness Tjan will convince you that there is a hard truth in the soft stuff of business and that choosing and working well with good people is truly the only leadership decision that really matters
