Coakley,1979 This Guide to the Study and Use of Military History is designed to foster an appreciation of the value of military history and explain its uses and the resources available for its study It is not a work to be read and lightly tossed aside but one the career soldier should read again or use as a reference at those times during his career when necessity or leisure

James D. G. Dunn,2003-07-29 In Christianity in the making James D G Dunn examines in depth the major factors that shaped first generation Christianity and beyond exploring the parting of the ways between Christianity and Judaism the Hellenization of Christianity and responses to Gnosticism He mines all the first and second century sources including the New Testament Gospels New Testament apocrypha and such church fathers as Ignatius Justin Martyr and Irenaeus showing how the Jesus tradition and the figures of James Paul Peter and John were still esteemed influences but were also the subject of intense controversy as the early church wrestled with its evolving identity *The Past as Liberation from History* Scott P.

Culclasure,1999 The Past as Liberation from History explores the difference between the social construction we call history and the lived experience we call the past arguing that by failing to distinguish between the two we risk unquestionably accepting as authoritative accounts of the past in which we have no voice It shows that identities rooted in the richness and variety of the past even when the history is painful serve the purpose of drawing us closer to one another as we seek to realize our shared dreams of life liberty and the pursuit of happiness By placing in counterpoint broader educational concerns with the teaching experiences of the author the study also explores this individual s testimony as a teacher seeking to make relevant for his students the examination of the past Empire and Elites after the Muslim Conquest Chase F.

Robinson,2000-12-21 The study of early Islamic historical tradition has flourished with the emergence of an innovative scholarship no longer dependent on more traditional narrativel approaches Chase Robinson s book first published in 2000 takes full account of the research available and interweaves history and historiography to interpret the political social and economic transformations in the Mesopotamian region after the Islamic conquests Using Arabic and Syriac sources to elaborate his argument the author focuses on the Muslim and Christian lites demonstrating that the immediate effects of the

conquests were in fact modest ones Significant social change took place only at the end of the seventh century with the imposition of Marwanid rule Even then the author argues social power was diffused in the hands of local lites This is a sophisticated study in a burgeoning field in Islamic studies *A History of Greece* George William Cox,1878 *Proceedings of the International Conference on Strategic and Global Studies (ICSGS 2024)* Ibrahim Kholilul Rohman,Wu Zhaoyang,Mohammad Izdiyan Muttaqin,Ismail Suardi Wekke,Irene Sondang Fitrintitia,2025-01-31 This is an open access book The pandemic turned to endemic has pushed many countries in the world to digitalize almost all sectors in order to accelerate the development Every crisis moments create momentum of opportunity to revive and reawaken the hidden potencies of nations Instead of given thought about the digital culture the social changes rapidly occurred The discourses of digital security cyber threats monetization crypto currency big data internet of things IoT artificial intelligence AI and social media had taken us concern about future generations The very existence of AI application distorts the academic world too where the difference of human and bot could hardly determine Chat GPT also opened academic eyes where the human analytics skill would perish against the advancement of technology that could provide more precise answers despite lack of wisdom Alipay has turned MSMEs to wider market and reach even small villagers to allow opportunity reach them Gojek eases the burden of stagnancy in making affordable and comfortable public transportation where at the same time reduce the traffic frequency Would everyone be fitted with the recent situation or still some country left behind Whereas for some parts of the world the very basic needs like electricity elementary education clean water healthy food and secure shelter are still luxurious and hard to access for certain part of the world The gap disparity remains and recent world order is not everyone s favor or answer for all problems Meanwhile the attack of HAMAS to the Israeli shocked the world when the Operation Aqsa Flood launched in 7th of October 2023 days gone by the casualties mounted and the psychology of Palestinian disturbed to the extent incurable Worse things worst Iran retaliates Israel after the attack to its consulate in Syria The international society and global politics failed to show solidarity amidst the humanitarian catastrophe in Palestine where Western alliance continuously rejected the cease fire in the UNGA The US as the global power failed to show its quality as the world leader which prove the political constellation moved to the multipolarity The injustice still persists and the voice to transform world order in UN resonates The consequence lies on the transformation of global security where each nations pursue its own weaponization to ensure its national survival and well being in the face of uncertainty and unpredictable threats The opportunity arises in the sector of global halal industry The player is not only Muslim countries but non Muslim countries are taking part The industry expanded from food to banking and financial system as well as tourism and fashion Countless exhibition in regards with halal industry appeared and triggered more expansion in market as the global expense in halal industry significantly increased This conference will become the melting pot of brilliant idea and push forward the solution to the global problem by making strategic decision into useful resource for all to solve the matters **Dragon Age:**

Hermeneutics, Politics, and the History of Religions Christian K. Wedemeyer, Wendy Doniger, 2010 This volume comprises papers presented at a conference marking the 50th anniversary of Joachim Wach's death and the centennial of Mircea Eliade's birth Its purpose is to reconsider both the problematic separate legacies of these two major twentieth century historians of religions and the bearing of these two legacies upon each other Shortly after Wach's death in 1955 Eliade succeeded him as the premiere historian of religions at the University of Chicago As a result the two have been associated with each other in many people's minds as the successive leaders of the so called Chicago School in the history of religions In fact as this volume makes clear there never was a monolithic Chicago School Although Wach reportedly referred to Eliade as the most astute historian of religions of the day the two never met and their approaches to the study of religions differed significantly Several dominant issues run through the essays collected here the relationship between the two men's writings and their lives and in Eliade's case the relationship between his political commitments and his writings in fiction history of religions and autobiography Both men's contributions to the field continue to provoke controversy and debate and this volume sheds new light on these controversies and what they reveal about these two scholars legacies
