## Questioning Belief:

**Asking Questions** Robert Fiengo, 2007-05-03 Asking Questions examines a central phenomenon of language the use of sentences to ask questions Although there is a sizable literature on the syntax and semantics of interrogatives the logic of questions and the speech act of questioning no one has tried to put the syntax and semantics together with the speech acts over the full range of phenomena we pretheoretically think of as asking questions Robert Fiengo not only does this but also takes up some more foundational issues in the theory of language By positioning the findings of contemporary grammatical theorizing within the larger domain of language use Fiengo challenges the use theorist to acknowledge the importance of grammatical form and the grammarian to acknowledge the importance of use In addition to developing an Austinian distinction between four questioning speech acts and a proposal concerning the philosophy of language Asking Questions contains a useful discussion of the type token distinction and how use of language compares with use of other things Fiengo also considers the nature of multiple questions revealing what one must know to ask them and what speech acts one may perform when asking them Asking Questions advances our understanding of a wide range of issues in a number of important respects Scholars and students of linguistics and philosophy will find plenty to interest them in this pioneering work *Be Your Own CBT Therapist* Windy Dryden, 2011-05-29 By changing and challenging your negative thoughts you can free yourself from depression anxiety and guilt and embrace a happier healthier way of life Windy Dryden one of the UK's leading practitioners of Behavioural Therapy will show you how the techniques of Rational Emotive Behaviour Therapy can not only beat the thought patterns that lead to low mood and emotional distress but will also help you to develop a more balanced way of life and give you a resilient focused attitude towards overcoming obstacles and coping with daily challenges

*Questioning Belief* Richard Harries, 1995-09 In Part One Questions of Faith and Hope Richard Harries considers some profound and potentially devastating objections to religious belief as expressed in landmarks of modern literature among them the novels of Dostoyevsky the plays of Beckett and the poetry of Hopkins Part Two Questions of Peace and Justice examines some of the challenges faced by the Church as it seeks to relate Christian principles to the economic and social order Here are brilliant reflections on issues of power politics human rights birth control the welfare system and business ethics all of them written with the verve and incisiveness for which Richard Harries is so well known Has Religion a Future is the final question he addresses Whether or not you agree with his answer this is a book that cannot fail to stimulate deeper and more responsible thinking about the role and relevance of Christianity as we approach the third millennium Essential Studies for A-Level Psychology Helen J.
