Russell Bernard, Clarence C. Gravlee, 2014-07-08 The Handbook of Methods in Cultural Anthropology now in its second edition maintains a strong benchmark for understanding the scope of contemporary anthropological field methods Avoiding divisive

debates over science and humanism the contributors draw upon both traditions to explore fieldwork in practice The second edition also reflects major developments of the past decade including the rising prominence of mixed methods the emergence of new technologies and evolving views on ethnographic writing Spanning the chain of research from designing a project through methods of data collection and interpretive analysis the Handbook features new chapters on ethnography of online communities social survey research and network and geospatial analysis Considered discussion of ethics epistemology and the presentation of research results to diverse audiences round out the volume The result is an essential guide for all scholars professionals and advanced students who employ fieldwork

Organizational Ethnography Sierk Ybema, Dvora Yanow, Harry Wels, Frans H Kamsteeg, 2009-08-20 Just as newspapers do not typically engage with the ordinary experiences of people's daily lives so organizational studies has also tended largely to ignore the humdrum everyday experiences of people working in organizations However ethnographic approaches provide in depth and up close understandings of how the everydayness of work is organized and how in turn work itself organizes people and the societies they inhabit Organizational Ethnography brings contributions from leading scholars in organizational studies that serve to unpack an ethnographic perspective on organizations and organizational research The authors explore the particular problems faced by organizational ethnographers including questions of gaining access to research sites within organizations the many styles of writing organizational ethnography the role of friendship relations in the field problems of distance and closeness the doing of at home ethnography ethical issues standards for evaluating ethnographic work This book is a vital resource for organizational scholars and students doing or writing ethnography in the fields of business and management public administration education health care social work or any related field in which organizations play a role

Rapid Assessment Process James Beebe, 2001-07-20 Rapid Assessment Process is the first introduction to the RAP group of ethnographic methods and techniques that provide field based research findings for policymakers and program planners Prepared by an international development professional it provides clear guidelines on producing high quality research in a fraction of the time taken by traditional ethnography Visit our website for sample chapters

Handbook of Case Study Research in the Social Sciences Peter Rule, Vaughn M. John, 2024-10-03 In this Handbook Peter Rule and Vaughn M John bring together international experts to provide a thorough overview of case study research in the social sciences Analysing both historical and contemporary examples the Handbook contains a comprehensive grounding for both experienced and novice researchers in case study theory and methodology drawing out the challenges as well as the prospects for its development

The SAGE Encyclopedia of Action Research David Coghlan, Mary Brydon-Miller, 2014-08-11 Action research is a term used to describe a family of related approaches that integrate theory and action with a goal of addressing important organizational community and social issues together with those who experience them It focuses on the creation of areas for collaborative learning and the design enactment and evaluation of liberating actions through combining action and

research reflection and action in an ongoing cycle of cogenerative knowledge While the roots of these methodologies go back to the 1940s there has been a dramatic increase in research output and adoption in university curricula over the past decade This is now an area of high popularity among academics and researchers from various fields especially business and organization studies education health care nursing development studies and social and community work The SAGE Encyclopedia of Action Research brings together the many strands of action research and addresses the interplay between these disciplines by presenting a state of the art overview and comprehensive breakdown of the key tenets and methods of action research as well as detailing the work of key theorists and contributors to action research *The Routledge Handbook of Anthropology and Global Health* Tsitsi B. Masvawure, Ellen E. Foley, 2024-03-20 The Routledge Handbook of Anthropology and Global Health provides an overview of the complex relationship between anthropology and global health The book brings together a diverse group of scholars who consider the intersection of anthropological concerns with health and disease as understood and intervened upon by the field of global health The book is structured around five sections 1 social cultural and political determinants of health 2 knowledge production in anthropology and global health 3 persistent invisibilities in global health 4 reimagining a critical global health and 5 new horizons in anthropology and global health Over these five themes a range of topics is explored including rare diseases medical pluralism universal global health protocols HIV health security indigenous communities non communicable diseases decolonizing global health The Routledge Handbook of Anthropology and Global Health is an essential resource for upper level students and researchers in anthropology global health sociology international development health studies and politics **Quick Ethnography** W.
