## **Personal Maturity The Existential Dimension:**

**Personal Maturity** Bernard J. Boelen, 1978-12 *Personal Maturity* Bernard Jacques Boelen, 1978 *Markers of Psychosocial Maturation* Mufid James Hannush, 2021-07-15 This book advances an integrative approach to understanding the phenomenon of psychosocial maturation Through a rigorous dialectically informed interpretation of psychoanalytic and humanistic existential phenomenological sources Mufid James Hannush distills thirty essential markers of maturity The dialectical approach is described as a process whereby lived affect and value laden polar meanings are transformed through deep insight into complementary and integrative meta meanings The author demonstrates how responding to the call of maturation can be viewed as a life project that serves the ultimate purpose of living a balanced life The book will appeal to students and scholars of human development psychotherapy social work philosophy and existential humanistic and phenomenological psychology *Aging and the Religious Dimension* Susan A. Eisenhandler, 1994-02-17 Aging and religion has been badly neglected in the field of Gerontology This book containing 13 chapters of original theory and research is devoted to understanding the place that religion and spirituality hold in the lives of elderly persons The authors each experts in their own field approach this issue from their backgrounds in the social sciences and the humanities Overall this is a ground breaking collection It is one of the first attempts to seek to understand the role that religion plays in the lives of elderly persons Based on their various multi disciplinary perspectives the authors make use of a variety of qualitative and quantitative methodologies as well as personal narrative and literature to grapple with this issue Finally the book is unique in that it addresses scholars and students including the educated layman rather than the professional alone *The Philosophy of Human Nature* Howard P. Kainz, 2015-11-05 What exactly is human nature What makes humans different from animals if there is any difference In this book Howard Kainz presents a philosophical analysis of the various concepts of human nature and the many controversies that have surrounded them for centuries He explores issues such as whether human beings are truly free whether human instincts differ from animal instincts and the realities of human maturity **Intimacy** Martin Fisher, 2012-12-06 Intimacy is a complex and heterogeneous concept that has generated a variety of definitions theories and philosophies over the years Although there is much disagreement about the essential meaning of the term there seems to be a consensus that intimacy whatever it may be is of central importance in human relationships and specifically in the theory and practice of psychotherapy One approach to intimacy focuses on an intrapsychic conception Intimacy occurs when an individual achieves full self knowledge and is fully in touch with his or her feelings and wishes From this viewpoint an intimate act occurs when a person is willing to share these feelings and wishes with another so that self disclosure becomes an important index of intimacy This definition also implies that intimacy need not be reciprocal so that a therapeutic relationship can achieve a good deal of intimacy without the therapist engaging in self disclosure An alternate approach to intimacy stresses the interpersonal nature of the concept Intimacy is seen as the product of an interaction and can only occur

between people Each one is able to touch something meaningful in the other whether at a conscious behavioral level or an unconscious and inferential level Therapists seeking intimacy in these terms would probably be a good deal more active and consider it more important to reveal something of the substance of their own persons if not the facts of their lives
