Personal Perspectives on Emotional Disturbance/behavioral Disorders Benjamin Leigh Brooks,David A. Sabatino,1996

Handbook of Emotional and Behavioural Difficulties Peter Clough,Philip Garner,John T Pardeck,Francis Yuen,2004-10-18

At first glance I felt that this is a book that I should buy On reading a selection of the chapters I realized that I must buy it Each of the four sections has chapter that I know I will want to read and many others that I will read It is a book that will provide student and authors in Higher Education and practitioners with much food for thought It also emphasizes the desperate need to cut through much of the polemic that abounds in this field and to return to argument based on carefully conducted empirical work Harry Daniels Deputy Head of School and Director of Research School of Education University of Birmingham Emotional and Behavioural Difficulties EBD in schools can be defined in many ways For example EBD can be seen as a set of problems that reside mainly within the individual student as the result of interactions between social and psychological sub systems or as the product of professional discourses that create and maintain the very problems that they purport to identify and solve Clough and Garner s Handbook of Emotional and Behavioural Difficulties sheds light on all of these perspectives and reveals the enormous complexity and diversity of what is termed EBD In doing this the book reveals itself to be both a scholarly and practical resource that will be indispensable to anyone seeking insight and direction for understanding and responding to EBD in the 21st century Readers looking for off the cuff tips for teachers or simplistic solutions will not find what they want in this book Rather the Handbook of Emotional and Behavioural Difficulties will appeal to readers who want to hear from writers who have genuine insight into the multi faceted world of EBD who have worthwhile things to say about the range of possible solution to this area of difficulty and regardless of differences that might appear between their theoretical positions share a sense of deep compassion for needs of students and educational professionals who experience EBD on day to day basis Professor Paul Cooper The University of Leicester The behaviour of children in primary and secondary schools has been a consistent source of interest and controversy since the 19th century Some commentators suggest that the phenomenon has a far more impressive historical pedigree As education systems in First World democracies struggle to meet changing social economic and educational conditions one group of children has increasingly become the focus of attention These are those who for a variety of underpinning reasons are either unable or unwilling to conform to the requirements of formal schooling As a result they are identified as having Emotional and or Behavioural Difficulties EBDs of one level of severity or another Contemporary debate increasingly links causation with intervention to form a holistic approach to problem prevention or remediation This Handbook provides a systematic and comprehensive overview of a series of often related themes which underpin theoretical and philosophical approaches to pupils perceived as having EBDs and their realization in both policy and provision The structure of book divides these themes into three core sections These allow the reader to consider children or young people with EBDs from a number of

perspectives and levels They are viewed in relation to society in general then in terms of individual education systems and the policies and provision they adopt and also in terms of the meanings of these problematic behaviours to the individual actors on whom they impact most profoundly Each theme or topic is organised to highlight the key principles or characteristics examples of their impact on current practices issues arising for debate The Handbook assembles contributions from significant authors in the field of EBD and particular emphasis is given to the international and comparative focus of the contributions Thus although contributions are principally from the UK and the USA these writers have been identified because of their capacity to develop broader transcultural insights The development of a comparative approach to special and inclusive education has now been well charted and there are some highly significant books in this field It therefore remains puzzling that the field of EBD probably one of the most significant areas of special education in terms of pupil numbers has largely escaped such international comparison Each chapter deals with a key theme in EBD from both a theoretical and practical perspective This approach has been adopted to enable individual chapters to be useful resources for a wide range of readers students academics and practitioners

Art and Disability A. Characteristics of Emotional and Behavioral Disorders of Children and Youth James M. Kauffman, 1993 Characteristics of Emotional and Behavioral Disorders of Children and Youth Seventh Edition focuses on clear descriptions of emotional and behavioral disorders and interpretation of research on the factors implicated in their development Features of the seventh edition Integrates child development literature and shows its relevance to children with disorders Addresses how emotional and behavioral development can be influenced for the better by educators Discusses the 1997 Amendments to IDEA and provides information regarding functional behavioral assessments and IEPs New in each chapter on a specific type of disorder an actual interview with the student has been added to help bring the student to life for the reader

The Unteachables Keith A. Mayes, 2023-01-24 How special education used disability labels to marginalize Black students in public schools The Unteachables examines the overrepresentation of Black students in special education over the course of the twentieth century As African American children integrated predominantly white schools many were disproportionately labeled educable mentally retarded EMR learning disabled LD and emotionally behavioral disordered EBD Keith A Mayes charts the evolution of disability categories and how these labels kept Black learners segregated in American classrooms The civil rights and the educational disability rights movements Mayes shows have both collaborated and worked at cross purposes since the beginning of school desegregation Disability rights advocates built upon the opportunity provided by the civil rights movement to make claims about student invisibility at the level of intellectual and cognitive disabilities Although special education ostensibly included children from all racial groups educational disability rights advocates focused

on the needs of white disabled students while school systems used disability discourses to malign and marginalize Black students From the 1940s to the present social science researchers policymakers school administrators and teachers have each contributed to the overrepresentation of Black students in special education Excavating the deep seated racism embedded in both the public school system and public policy The Unteachables explores the discriminatory labeling of Black students and how it indelibly contributed to special education disproportionality to student discipline and push out practices and to the school to prison pipeline effect

Issues in Educational Placement James M. Kauffman, Daniel P. Hallahan, Terry A. Astuto, John Wills Lloyd, 2019-08-07 Placement of students with disabilities in the least restrictive environment has become a central issue in special education To date no comprehensive treatment of placement issues is available especially for students with emotional and behavioral disorders who present particularly difficult placement problems This book combines data and discussions intended to further the understanding of how and why decisions are made to place students with emotional or behavioral disorders in particular educational environments This volume establishes the problem of placement in a contemporary and historical context reviews the literature on placement of students with emotional or behavioral disorders and discusses placement options and concerns about multicultural issues post secondary education law and regulation demands on teachers and policy choices Its goals are to improve understanding of decision processes leading to placement set the stage for improvements in pupils lives in school and elsewhere and stimulate research on the many placement issues that are left unresolved
