**Winning with Your Body, Mind, and Soul** Henry Arnold Davis, 2024-10-31 Winning can be an elusive thing Anyone who has chased a dream can relate What does it mean to win If once a winner is one always a winner Does success in one area of life make one a winner Who decides whether someone has actually won At their core people are driven to overcome any challenge they face physical mental or spiritual They want to win with their bodies minds and souls separately and collectively Their desire is to be a winner in the game of life and beyond if there is such a thing Competitions with the body and the mind are battles Competition with the soul is war The War Ideally everyone would win the battles and the war However it's okay to lose every battle and win the war But it's not okay to win every battle and lose the war Victories with the body and the mind are paper victories Winning with the soul is the only victory that matters in The End While no one knows what will happen when they die an analysis of the world's top twenty two religions nonreligions proves that Christianity gives us the best chance at winning The War
