Perspective In Architecture:

Perspective in Architectural Drawings Felix König, 1984 **Architecture in Perspective** Johannes Möhrle, 1994 A step by step guide to the technique of perspective drawing for architects Illustrated with over 100 black and white photographs and colour illustrations as well as 125 detailed examples of perspective drawings this book explains how to set out a geometric framework for drawing and how to achieve specific constructions with both interior and exterior spaces

The Principles of Architectural Perspective George Alexander Thomas Middleton, 1919 Emerging Perspectives on Teaching Architecture and Urbanism David Leite Viana, Emílio da Cruz Brandão, Franklim Moraes, Isabel Cristina Carvalho, José P. Duarte, Nicolau Brandão, 2023-11-17 This book contains a set of essays on the teaching of Architecture and Urbanism written by university professors and researchers from several countries It argues that the teaching of architecture and urbanism is in a state of crisis architecture seems unable to respond to current problems and urbanism seems incapable of fulfilling the needs of a more balanced society and its built environment including the human right to housing The book comprises historical analyses systematization of concepts manifestos and social evaluations and above all an alignment of new objectives curricular plans and pedagogical methodologies Architecture in Perspective Johannes Möhrle, 1994 A step by step guide to the technique of perspective drawing for architects Illustrated with over 100 black and white photographs and colour illustrations as well as 125 detailed examples of perspective drawings *Perspective, Projections and Design* Mario Carpo, Frédérique Lemerle, 2013-04-15 The essays selected for this book presented in chronological order discuss various aspects of image making technologies geometrical knowledge and tools for architectural design focusing in particular on two historical periods marked by comparable patterns of technological and cultural change The first is the Renaissance characterized by the rediscovery of linear perspectives and the simultaneous rise of new formats for architectural drawing and design on paper the second the contemporary rise of digital technologies and the simultaneous rise of virtual reality and computer based design and manufacturing Many of the contributing authors explore the parallel between the invention of the perspectival paradigm in early modern Europe and the recent development of digitized virtual reality This issue in turn bears on the specific purposes of architectural design where various representational tools and devices are used to visualize bi dimensional aspects of objects that must be measured and eventually built in three dimensional space Functional Thinking for Value Creation Jürgen Hesselbach, Christoph Herrmann, 2011-03-18 After the IPS2 conferences in Cranfield and Link ping in 2009 and 2010 the 3rd CIRP International Conference on Industrial Product Service Systems IPS2 2011 takes place in Braunschweig Germany IPS2 itself is defined as an integrated industrial product and service offering that delivers value in use The customers expect comprehensive solutions which are adapted to their individual needs IPS2 offers the possibility to stand out from competition and for long term customer loyalty Particularly in times of economic crisis it becomes apparent which producing companies understand to satisfy the needs and requirements of their customers

Especially in this relatively new domain IPS2 it will be important to keep track of the whole context and to seek cooperation with other research fields and disciplines The 3rd CIRP International Conference on Industrial Product Service Systems IPS2 2011 serves as a platform for such collaborations and the discussion of new scientific ideas
