Morality for Humans Mark Johnson,2015-09-04 A welcome renewal and defense of John Dewey s ethical naturalism which Johnson claims is the only morality fit for actual human beings Notre Dame Philosophical Reviews What is the difference between right and wrong This is no easy question to answer yet we constantly try to make it so frequently appealing to absolutes whether drawn from God universal reason or societal authority Combining

cognitive science with a pragmatist philosophical framework Mark Johnson argues that appealing solely to absolute principles is not only scientifically unsound but even morally suspect He shows that the standards for the kinds of people we should be and how we should treat one another are frequently subject to change Taking context into consideration he offers a nuanced naturalistic view of ethics that sees us creatively adapt our standards according to given needs emerging problems and social interactions Ethical naturalism is not just a revamped form of relativism Indeed Johnson attempts to overcome the absolutist versus relativist impasse that has been one of the most intractable problems in the history of philosophy Much of our moral thought he shows is automatic and intuitive gut feelings that we attempt to justify with rational analysis and argument However good moral deliberation is not limited to intuitive judgments supported after the fact by reasoning Johnson points out a crucial third element we imagine how our decisions will play out how we or the world would change with each action we might take Plumbing this imaginative dimension of moral reasoning he provides a psychologically sophisticated view of moral problem solving one perfectly suited for the embodied culturally embedded and ever developing human creatures that we are

Theories of Action and Morality Mark Alznauer, José M. Torralba, 2016-02-01 Die in diesem Band versammelten Essays erörtern die Frage nach der Möglichkeit des Verstehens menschlichen Handelns ohne den Rückbezug auf moralische Werte und Normen Obwohl die Autoren sich dieser Frage auf ganz unterschiedliche manchmal divergierende Weisen nähern verbindet sie alle die Annahme es sei nicht wünschenswert oder sogar inkohärent das menschliche Handeln grundsätzlich unabhängig von moralischen Werten zu betrachten Die Herausgeber haben sich um eine für Philosophen und Gesellschaftswissenschaftler gleichermaßen attraktive Beitragssammlung bemüht Die Verknüpfung philosophischer und soziologischer Perspektiven könnte zur Klärung gegenseitiger Missverständnisse beitragen die aufgrund eines mangelhaften Dialogs zwischen der philosophischen und soziologischen Handlungstheorie erwachsen sind In diesem Band enthalten sind Essays von Terry Pinkard Sebastian Rödl Dieter Schönecker Ana Marta González John Levi Martin Alejandro N. García Martínez Sophie Djigo Teresa Enríquez und Evgenia Mylonaki The essays in this volume address the

question of whether we can understand human action without reference to moral norms or values Although the authors approach this question in different and sometimes even incompatible ways they are united in thinking that it is undesirable or even incoherent to treat human agency as if it were conceptually independent of value questions The editors have attempted to invite contributions that would be interesting to both philosophers and social theorists The conjunction of philosophic and sociological perspectives might help to overcome some of the mutual misunderstandings that have been fostered by a lack of dialogue between the philosophic and sociological action theory The volume includes essays by Terry Pinkard Sebastian R dl Dieter Sch necker Ana Marta Gonz lez John Levi Martin Alejandro N Garc a Mart nez Sophie Djigo Teresa Enr quez and Evgenia Mylonaki

Perspectives in Jurisprudence Eric J. Boos, 1998 H L A Hart s book *The Concept of Law* is perhaps the single greatest contribution to the field of legal philosophy in this century Hart lays the groundwork for the continued progress in the perennial debate between legal positivism and natural law This book briefly reviews the historic significance of that debate and demonstrates how Hart paves the way for an enlightened analysis of the tenuous relationship between law and morality It provides a detailed examination of Hart s efforts to establish a legal framework through primary and secondary rules and an ultimate rule of recognition It focuses specifically on Hart s reliance on the internal perspective as a means of establishing the form of obligation necessary for a legal system It examines Hart s treatment of the relationship between law and morality and Hart s mischaracterization of St Thomas Aquinas s natural law theory

Helwig, 2017-10-10 This volume presents a selection of some of the most exciting new perspectives on moral development that have emerged over the last decade and have transformed our understanding of the field The contributors to this book cut across traditional boundaries to provide an innovative and integrative approach to fundamental questions dealing with the nature and acquisition of morality In addressing these questions the chapters draw on new work on the origins of morality in infancy and the early years comparative approaches examining morality in primates new perspectives on moral emotions such as guilt and empathy and new perspectives on the emerging moral self in childhood and moral identity in adolescence The book also examines the roles of parenting and culture in children s and adolescents moral development Each chapter is framed in theory and methodology and provides illustrative examples of new research to address important questions in the field This book is essential reading for researchers and advanced undergraduate and postgraduate students studying moral development and developmental psychology It will also be of interest to academics and professionals in related fields such as education and public policy

Moral Development, Ethical Perspective, and Delinquent Behavior Kimberly Patrice Kelly, 1990 *Good Sex* Raymond A. Belliotti, 1993 Rules about sexuality written and unwritten have existed in every culture as have disagreements over what is and isn t acceptable Must morally permissible sex have only one function Must it be heterosexual Must it occur within the confines of the institution of marriage Must it be accompanied by requisite emotions such as love and intimacy

Perspectives on Equality Christine M. Koggel, 1998 Beginning with liberalism's foundational idea of moral equality as the basis for treating people with equal concern and respect Christine Koggel offers a modified account of what makes human beings equal and what is needed to achieve equality Koggel utilizes insights from care ethics but switches the focus from care as a moral response within personal relationships to the broader network of relationships within which care is given or withheld The result is an account of moral personhood and agency that is richer than the view propounded by liberal theory and care ethics This exciting and original work challenges theoretical resistance to the idea that relationships are relevant to an understanding of equality and it provides an opening to a critical analysis of relationships and care that informs and transforms our understanding of what is needed to treat all people with equal concern and respect *Is there a Christian Case for Assisted Dying* Paul Badham, 2009-01-23 Issues surrounding euthanasia and assisted dying continue to hit the headlines with strong feelings on both sides In *Is There a Christian Case for Assisted Dying* Paul Badham makes a significant and controversial contribution to this important and current debate *Mass Media and the Moral Imagination (Communication, Culture and Theology)* Philip J. Rossi, Paul A. Soukup, 1994-03
