Psychology in Christian Perspective Harold Faw, 1995-06-01

Integration Paul J. Morrison, 2022-06-23. While the Southern Baptist Convention has so often been a step behind on the issue of race, since its formation there was still light shining in the darkness, a group of biblically faithful men and women who both recognized and fought for their racially marginalized brothers and sisters. Chief among these men and women was Thomas Buford Maston. T. B. Maston faithfully engaged the topic as the SBC's preeminent ethicist from 1922-1963 as a professor at Southwestern Baptist Theological Seminary. This stand ultimately cost him his job. Even still, some sixty years later, his theology and ethics model the full unity in Christ. This book examines the writings of T. B. Maston in his efforts to reform the racially misguided interpretations of Scripture in the church and their subsequent prejudices. Maston is not merely a visionary who foreshadowed the eventual position of the SBC and more widely the evangelical church, but is one who directly caused legitimate change. Maston's profound yet humble work gives a blueprint for future racial reconciliation through integration in the church.

The Routledge International Handbook of Sociology and Christianity Dennis Hiebert, 2023-10-18. The Routledge International Handbook of Sociology and Christianity examines the intersection of the sociology of religion, a long-standing focus of sociology, and Christianity, the world's largest religion. An internationally representative and thematically comprehensive collection, it analyzes both the sociology of Christianity and Christian approaches to sociology with attention to the Roman Catholic, Orthodox, and Protestant branches of Christianity. An authoritative state-of-the-art review of current research, it is organized into five interconnected thematic sections considering the overlapping emergence of both the Christian religion and the social sciences, the conceptualization of and engagement with Christianity by sociological theory, the ways in which Christianity shapes and is shaped by various social institutions, the manner in which Christianity resists and promotes various forms of social change, and the identification, diagnosis, and correction of social problems by sociology and Christianity. This volume is an invaluable collection for scholars and advanced students with special appeal for those working in the fields of sociology and social theory as well as religious studies and theology.
