Perspectives on Loss and Trauma John H. Harvey, 2002 Handbook of Traumatic Loss Neil Thompson, Gerry R. Cox, Robert G. Stevenson, 2017-01-06 The Handbook of Traumatic Loss adopts a broad holistic approach that recognizes traumatic loss much more fully as a multidimensional human phenomenon not simply a medical condition Initial chapters build a foundation for understanding traumatic loss and explore the many ways we respond to trauma Later chapters counterbalance the individualistic focus of dominant approaches to traumatic loss by highlighting a number of thought provoking social dimensions of traumatic loss Each chapter emphasizes different aspects of traumatic loss and argues for ways in which clinicians can help deal with its many and varied impacts Responding to Loss Adolf Hansen, 2020-11-25 Reading this book caregivers will find ways to increase their effectiveness by understanding more fully what their care receivers are experiencing by finding creative ways to assist them in processing what is happening and by working with them to discern responses to loss that are emotionally healthy intellectually coherent spiritually genuine culturally sensitive relationally authentic and personally fulfilling On the move Aitor Ibarrola-Armendariz, Jon Ortiz de Urbina Arruabarrena, 2016-07-29 This volume brings together a selection of the papers and round tables delivered at the 39th AEDEAN Conference held at the University of Deusto in November 2015 The essays in On the Move Glancing Backwards to Build a Future in English Studies often begin with typically academic gestures such as retrieving a classic text and finding new ways of studying its genre or characterization or remarking how certain ungrammatical constructions have gone frequently unnoticed even in well known texts for various reasons or entangling oneself in contentions about the adequacy of dissecting a literary text or linguistic problem by using innovative analytical tools In all cases though there is the intention of putting forth certain views and notions that will help future scholars to deal in a better light with the dilemmas regularly encountered in literary linguistic and cultural studies The book opens with three essays by professors Bartholomae Pullum and R o who demonstrate not only their mastery in their respective subjects but also their ability to tailor their contents to multifarious audiences The next two sections represent the main body of the e book with nearly forty contributions on both literature and cultural studies Part II and language and linguistics Part III These short academic pieces are a representative showcase of the research being done lately in the different areas of expertise The last section of the volume gathers together the results of four research projects dealing with such engaging topics as postcolonial crime fiction or forgotten texts by Anglo writers about the Spanish Civil War It is hard to think of any potential reader schooled in English Studies who will not find something suitable to their interests and tastes in this volume The Evolution of Cognitive Behavior Therapy Donald Meichenbaum, 2017-02-17 The Evolution of Cognitive Behavior Therapy A Personal and Professional Journey with Don Meichenbaum explores the untold story of how Cognitive Behavior Therapy emerged and discusses the controversies encountered along the way This volume will feature a personal account of Don Meichenbaum's contributions from his initial

work on self instructional training with schizophrenics and impulsive children through his work on stress inoculation training and his most recent works with traumatized individuals These previously published papers are complemented with updated papers and accompanying commentary Handbook of Posttraumatic Growth Lawrence G. Calhoun, Richard G. Tedeschi, 2014-07-10 Posttraumatic growth is an area in which investigations are now being undertaken in many different parts of the world The view that individuals can be changed sometimes in radically good ways by their struggle with trauma is ancient and widespread However the systematic focus by scholars and clinicians on the possibilities for growth from the struggle with crisis is relatively recent There are now a growing number of studies and scholarly papers on the antecedents correlates and consequences of posttraumatic growth and there are also theoretical models that can help guide the research further It is clear however that this phenomenon is not yet well understood The Handbook of Posttraumatic Growth Research and Practice provides both clinicians and researchers with a comprehensive and up to date view of what has been done so far In addition it uses the foundations of what has been done to provide suggestions for the next useful steps to take in understanding posttraumatic growth The book offers contributions of important and influential scholars representing a wide array of perspectives of posttraumatic growth This volume serves as an impetus for additional work both in the academic aspects and in the possibilities for clinical applications of posttraumatic growth This Handbook will appeal to students practitioners and researchers working in a broad array of disciplines and human services **Counting Our Losses** Darcy L. Harris, 2011-01-19 This text is a valuable resource for clinicians who work with clients dealing with non death nonfinite and ambiguous losses in their lives It explores adjustment to change transition and loss from the perspective of the latest thinking in bereavement theory and research The specific and unique aspects of different types of loss are discussed such as infertility aging chronic illnesses and degenerative conditions divorce and separation immigration adoption loss of beliefs and loss of employment Harris and the contributing authors consider these from an experiential perspective rather than a developmental one in order to focus on the key elements of each loss as it may be experienced at any point in the lifespan Concepts related to adaptation and coping with loss such as resilience hardiness meaning making and the assumptive world transcendence and post traumatic growth are considered as part of the integration of loss into everyday life experience

Problematizing Law, Rights, and Childhood in Israel/Palestine Hedi Viterbo, 2021-08-05 In this book Hedi Viterbo radically challenges our picture of law human rights and childhood both in and beyond the Israel Palestine context He reveals how Israel rather than disregarding international law and children's rights has used them to hone and legitimize its violence against Palestinians He exposes the human rights community s complicity in this situation due to its problematic assumptions about childhood its uncritical embrace of international law and its recurring emulation of Israel's security discourse He examines how and to what effect both the state and its critics manufacture shape and weaponize the categories child and adult Bridging disciplinary divides Viterbo analyzes hundreds of previously unexamined sources many of which are

not publicly available Bold sophisticated and informative Problematizing Law Rights and Childhood in Israel Palestine provides unique insights into the ever tightening relationship between law children's rights and state violence at both the Loss, Grief, and Trauma in the Workplace Neil Thompson, 2009 The workplace is not immune to local and global levels the problems pressures and challenges presented by experiences of loss and trauma and the grief reactions they produce This clearly written well crafted book offers important insights and understanding to help us appreciate the difficulties involved and prepare ourselves for dealing with such demanding situations when they arise People's experiences of loss and trauma are of course not left at the factory gate or the office door Nor are loss and traumatic events absent from the workplace itself Loss grief and trauma are very much a part of life and that includes working life Executives managers human resource professionals and employee assistance staff need to have at least a basic understanding of how loss grief and trauma affect people in the workplace This book provides that foundation of understanding and offers guidance on how to find out more about these vitally important workplace issues. The text provides a valuable blend of theory and practice that will be of interest to those involved in management human resources and organizational studies as well as those interested in the social scientific study of loss grief and trauma and of course to those involved in the helping professions It is essential reading for anyone concerned with making the workplace a more humane and effective environment or anyone wishing to develop an understanding of the complexities of loss grief and trauma in our lives Zeitschrift für Genozidforschung ,2003 Journal of Education for Social Work ,2002 **Imagining the City** Sean Field, Renate Meyer, Felicity Swanson, 2007 The overriding strength of this book is that it places people ordinary people at the centre of memory at the centre of historical and contemporary experience and thus at the centre of reimagining and owning the city of Cape Town It is as they speak what they choose to say what they choose to remain silent about that we become aware of the possibilities of the city if it really did embrace all its people in all of their diversity Mike van Graan from the foreword Cities are not only made of buildings and roads but they are also constructed through popular imagination and memory as evidenced in this collection of oral and visual histories drawn from the people who live work and creatively express themselves in Cape Town South Africa The collected works move beyond apartheid history to analyze the reflective ways in which people are coming to terms with that history through memory work performance and memorialization **American Book Publishing Record** .2002 Hurting the One You Love Irene Hanson Frieze, 2005 A groundbreaking book that has grown out of over 30 years of research HURTING THE ONE YOU LOVE provides an overview of theory and research on all forms of violence in intimate relationships including violence in dating relationships and marriages incest rape and sexual victimization date rape stalking child abuse and sexual harassment HURTING THE ONE YOU LOVE also explores how violence affects the family and others who are close to the victim and uses criminal justice data and research as well as the research of psychologists in studying these phenomena In addition the text covers rape and violence prevention efforts as well as educational programs The
