Peter Behrens And A New Architecture For The Twentieth Century:

Peter Behrens and a New Architecture for the Twentieth Century Stanford Anderson, 2002-08-23 The complete story of Behrens contribution to the history oftentieth century architecture *German Cities and Bourgeois Modernism, 1890-1924* Maiken Umbach, 2009-06-25 This is a study of a distinctive brand of modernism that first emerged in late nineteenth century Germany and remained influential throughout the inter war years and beyond Its supporters saw themselves as a new elite ideally placed to tackle the many challenges facing the young and rapidly industrializing German nation state They defined themselves as bourgeois and acted as self appointed champions of a modern consciousness Focusing on figures such as Hermann Muthesius Fritz Schumacher and Karl Ernst Osthaus and the activities of the Deutscher Werkbund and other networks of bourgeois designers writers and experts this book shows how bourgeois modernism shaped the infrastructure of social and political life in early twentieth century Germany Bourgeois modernism exercised its power not so much in the realm of ideas but by transforming the physical environment of German cities from domestic interiors via consumer objects to urban and regional planning Drawing on a detailed analysis of key material sites of bourgeois modernism and interpreting them in conjunction with written sources this study offers new insights into the history of the bourgeois mindset and its operations in the private and public realms Thematic chapters examine leitmotifs such as the sense of locality and place the sense of history and time and the sense of nature and culture Yet for all its self conscious progressivism German bourgeois modernism was not an inevitable precursor of neo liberal global capitalism It remained a hotly contested historical construct which was constantly re defined in different geographical and political settings *Vom Baumeister zum Master. Formen der Architekturlehre vom 19. bis ins 21. Jahrhundert* Ebert, Carola, Froschauer, Eva Maria, Salge, Christiane, 2019-03-28 Der Tagungsband versammelt Beitr ge des 3 Forums Architekturwissenschaft zum Thema der historischen und gegenw rtigen Architekturausbildung vom Baumeister zum Master das vom 25 bis 27 November 2016 an der Freien Universit t Berlin in Kooperation mit der Brandenburgischen Technischen Universit t Cottbus Senftenberg stattfand Die Aufs tze verhandeln Fallbeispiele der Architekturlehre vom 19 bis ins 21 Jahrhundert entlang von konstant bedenkenswerten Querschnittsfragen wie jene nach Akteursperspektiven nach Lehrformatem oder auch Institutionenpolitiken Dabei werden Geschichte Gegenwart und Zukunft der besonderen Ausbildungsdisziplin Architektur in einen Austausch gebracht Es stehen auf diese Weise wissenschaftlich reflektierende Stimmen neben jenen die aus der Unterrichtspraxis berichten Die Sortierung innerhalb des Bandes bindet die Texte jeweils mit Hilfe einer berzeitlichen also systematischen Fragestellung aneinander The conference proceedings publishes contributions to the 3rd Forum Architekturwissenschaft on the topic of historic and contemporary architectural education from master builder to master that was held 25 27 November 2016 at Freie Universit t Berlin in cooperation with Brandenburg University of Technology Cottbus Senftenberg The papers discuss case studies of architectural education from

the 19th to the 21st century along questions of continuous relevance such as the notion of actors perspectives teaching formats or institutional politics Thus history present and future of architecture as a particular educational field are brought into a joint discourse Academic research is joined with voices from the practice of teaching The publication s structure binds the individual contributions in the narrative of these transtemporal questions **Luxury and Modernism** Robin

Schuldenfrei,2018-06-05 While modernism was publicized as a fusion of technology new materials and rational aesthetics to improve the lives of ordinary people it was often out of reach to the very masses it purportedly served Luxury and Modernism shows how luxury was present in bold literal forms in modern designs from lavish materials and costly technologies to deluxe buildings and household objects and in subtler ways as well such as social milieus and modes of living In a period of social unrest and extreme wealth disparity between the common worker and those at the helm of capitalist enterprises generating immense profits architects envisioned modern designs providing solutions for a more equitable future Robin Schuldenfrei exposes the disconnect between modernism s utopian discourse and its luxury objects and elite architectural commissions Despite the movement s egalitarian rhetoric many modern designs addressed the desires of the privileged individual Yet as Schuldenfrei demonstrates luxury was integral not only to how modern buildings and objects were designed manufactured and sold but has contributed to modernism s appeal to this day This beautifully illustrated book provides a new interpretation of modern architecture and design in Germany during the heyday of the Bauhaus and the Werkbund tracing modernism s lasting allure to its many manifestations of luxury Schuldenfrei casts the work of legendary figures such as Peter Behrens Walter Gropius and Ludwig Mies van der Rohe in an entirely different light revealing the complexities and contradictions inherent to modernism s promotion and consumption **Walter Gropius** Winfried Nerdinger,2019-09-19 Erschaffen wir

need of care or subject to pathologization. Similarly the book goes beyond physical buildings and cities to interrogate architecture's policy protocols and spatial logics. Its thirty-five diverse essays explore moments in global history when shifting notions of health became vectors for the development of architectural practice and discourse as well as the reverse when architecture acted as a reservoir and vector for illness. **Geschichte und Gesellschaft** Jürgen Kocka, Jürgen
