Peter Halley Maintain Speed:

Peter Halley Peter Halley, Rudi Fuchs, 2000 Painter writer teacher and publisher Peter Halley has been a widely influential figure in the international art world since his bold canvases were first shown in the early 1980s Emerging from the East Village Neo Geo scene Halley soon became known for his aggressively colored Day Glo paintings of square cells and rectilinear conduits titled with references ranging from the erudite to the pop While his paintings may initially recall the abstractions of Newman Mondrian and Albers Halley's work breaks with the modernist agenda by insisting on a figurative referent and as curator and critic Dan Cameron has noted Halley effectively restates the terms of abstraction in our time For Halley geometry is a profoundly social fact and his paintings are diagrams of the experience of space and time in contemporary society depictions of loneliness and of connection Peter Halley Maintain Speed is a visual tour de force stunningly designed by COMA in collaboration with the artist The book surveys the full range of his career and includes essays by an international roster of noted art critics New Book Design Roger Fawcett-Tang, 2004-05-25 New Book Design showcases the most interesting influential and accomplished book designs from the last ten years It features over 100 titles published around the world each chosen for their outstanding design qualities from the publications of large mainstream publishers to those of small independent companies and even those from individual artists Included in its pages are lavishly produced books with unconventional formats and unusual print techniques as well as less flamboyant publications produced for various different markets A wide variety of books are featured from paperback novels to architectural monographs from text based to profusely illustrated books Divided into four main sections Packaging Navigation Layout and Specification the book examines each facet of book design cover design contents and structure image usage grids typography paper printing and binding Clear photography captures each featured book and interviews with prominent book designers art directors and publishers provide extra insight New Book Design is sure to provide a rich source of inspiration to book designers and bibliophiles alike **Unpackaging Art of the 1980s** Alison Pearlman, 2003-06-15 American art of the 1980s is as misunderstood as it is notorious Critics of the time feared that market hype and self promotion threatened the integrity of art They lashed out at contemporary art questioning the validity of particular media and methods and dividing the art into opposing camps While controversies have since subsided critics still view art of the 1980s as a stylistic battlefield Alison Pearlman rejects this picture which is truer of the period's criticism than of its art Pearlman reassesses the works and careers of six artists who became critics' biggest targets In each of three chapters she pairs two artists the critics viewed as emblematic of a given trend Julian Schnabel and David Salle in association with Neo Expressionism Jean Michel Basquiat and Keith Haring vis vis Graffiti Art and Peter Halley and Jeff Koons in relation to Simulationism Pearlman shows how all these artists shared important but unrecognized influences and approaches a crucial and overwhelming inheritance of 1960s and 1970s Conceptualism a Warholian understanding of public identity and a deliberate and nuanced use of past styles and media

Through in depth discussions of works from Haring's body paintings of Grace Jones to Schnabel's movie Basquiat Pearlman demonstrates how these artists' interests exemplified a broader generational shift unrecognized by critics. She sees this shift as starting not in the 1980s but in the mid 1970s when key developments in artistic style, art world structures and consumer culture converged to radically alter the course of American art. *Unpackaging Art of the 1980s* offers an innovative approach to one of the most significant yet least understood episodes in twentieth century art. **The Grove Encyclopedia of**

This book explores the relation of abstract art to nature. Traditional picturing and sculpture are based on conventions of resemblance between the work and that which it is a representation of. Abstract works in contrast adopt alternative modes of visual representation or break down and reconfigure the mimetic conventions of pictorial art and sculpture. Obviously this means that abstract art takes many different forms. However, this diversity should not mask some key structural features: these center on two basic relations to nature: understanding nature in the broadest sense to comprise the world of recognisable objects, creatures, organisms, processes and states of affairs. The first involves abstracting from nature to give selected aspects of it a new and extremely unfamiliar appearance. The second involves abstract art as the affirmation of a relatively unconstrained natural creativity that issues in new autonomous forms that are not constrained by mimetic conventions. Such creativity is often attributed to the power of the unconscious. The book contains three categories of essays:

1 those on classical modernism Mondrian Malevich Kandinsky Arp early American abstraction 2 those on post war abstraction Pollock Still Newman Smithson Noguchi Arte Povera Michaux postmodern developments and 3 those of a broader art historical and philosophical scope Provided by publisher **Peter Halley** Peter Halley,1992 *Art & Text* ,2000 *Bookforum* ,1998 **Artext** ,2000 **User** Peter Lunenfeld,2005 Doing theory and criticism in real time essays on subjects ranging from art and industrial design to The Matrix and Web porn In these essays Peter Lunenfeld does theory and criticism in real time looking at among other subjects art video games book design techno masturbation The Matrix and life extension diets Readers will have to determine for themselves he writes if this range is symptomatic of pluralism or promiscuity User illuminates the patterns and repetitions that link for example nanotechnology to electronic music artist archivist Harry Smith to architect superstar Rem Koolhaas Pontiacs to open source software And User offers a reading experience that is more vivid than most Mieke Gerritzen s bold visuals create a book that is also a designed object a compact matrix of words and image as potent as a smart bomb User is not a manifesto Lunenfeld means these essays which were written originally for the international magazine artext to be translator utilities bridging the gap between the art world and the design establishment between journalism and the seminar room Pondering the permanent present of today s visual culture Lunenfeld blames the twenty first century s inability to imagine the future on a movie and an interface the too influential aesthetic of Blade Runner and the ubiquitous desktop of nested files icons trash cans and cascading windows he argues have become impediments to our thinking beyond the present Lunenfeld writes about Euro Disney Matthew Barney the VHS pornucopia that killed off Betamax the computer as a solitude enhancement machine our embarrassing Y2K hysteria when TEOTWAWKI The End of the World As We Know It didn t happen and other faces of what he calls that overwhelming diversity which for lack of a better term we call the present *American Art from the Goetz Collection* Sammlung Goetz,Noemi Smolik,2001 Artwork by Carroll Dunham Robert Gober Jenny Holzer Mike Kelley Jonathan Lasker Louise Lawler Raymond Pettibon Paul Pfeiffer Richard Prince Jessica Stockholder Andrea Zittel Peter Halley Cady Noland Edited by Rainald Schumacher Contributions by Ingvild Goetz Text by Ursula Frohne Noemi Smolik **Peter Halley** ,2001 **Design & Applied Arts Index** ,2001 *New Art Examiner* ,2001 The independent voice of the visual arts *Frieze Art Fair Yearbook* ,2003 **Art of the Twentieth Century** ,2006 *Art on Paper* ,1999 **Peter Halley** ,2003
