 Beth Blum, 2020-01-28 Samuel Beckett as a guru for business executives James Joyce as a guide to living a good life The  
 notion of notoriously experimental authors sharing a shelf with self help books might seem far fetched yet a hidden history of  
 rivalry influence and imitation links these two worlds In The Self Help Compulsion Beth Blum reveals the profound  
 entanglement of modern literature and commercial advice from the late nineteenth century to the present day Blum explores  
 popular reading practices in which people turn to literature in search of practical advice alongside modern writers rebukes of  
 such instrumental purposes As literary authors positioned themselves in opposition to people like Samuel Smiles and Dale  
 Carnegie readers turned to self help for the promises of mobility agency and practical use that serious literature was  
 reluctant to supply Blum unearths a series of unlikely cases of the love hate relationship between serious fiction and  
 commercial advice from Gustave Flaubert's mockery of early DIY culture to Dear Abby's cutting diagnoses of Nathanael West  
 and from Virginia Woolf's ambivalent polemics against self improvement to the ways that contemporary global authors such  
 as Mohsin Hamid and Tash Aw explicitly draw on the self help genre She also traces the self help industry's tendency to  
 popularize quote and adapt literary wisdom and considers what it might have to teach today's university Offering a new  
 history of self help's origins appeal and cultural and literary import around the world this book reveals that self help's most
