Personal Property Law:

Personal Property Law Simon Gleeson, 1997 This title deals with the complex and wide ranging area of the law that is personal property The book considers the applicability of laws when dealing with different types of property such as bank accounts dematerialized securities information and commodities in various situations It looks in detail at four main areas the passing of title in sale purchase transactions the creation of proprietary security rights in personal property the retention of title questions relating to assets and litigation and the remedies which may be sought from a court Personal Property Law Michael Bridge, 2015-04-16 What type of right is a property right How are items of property classified for legal purposes In this revised edition of Personal Property Law Michael Bridge provides answers to these fundamental questions of property law His critical analysis includes new material on insolvency in particular the anti deprivation principle and the pari passu rule as well as comprehensive accounts of recent case law OBG v Allan Yearworth and Datastream and statutory developments Widely considered to be the best short introduction to English personal property law Bridge constructs an authoritative and systematic summary of this complex field for readers approaching the subject for the first time It focuses on the acquisition loss transfer and protection of interests in personal property law and specific topics include ownership and possession treatment of the separate contributions of the common law and equity to modern personal property law discussion of modes of transfer the means of protecting property interests the resolution of disputes concerning title to personal property the grant of security interests and the issues arising out of the transformation and mixing of tangible personal property The Principles of Personal Property Law Duncan Sheehan, 2011-11-30 The law of personal property covers a very wide spectrum of scenarios and has had little detailed scrutiny of its overarching structure over the years This is a shame It is a system and can best be understood as a system Indeed without understanding it as a system it becomes much more difficult to understand This new textbook is intended to provide a comprehensive and yet detailed coverage of the law of personal property in England and Wales It includes transfer of legal title to chattels the nemo dat rule negotiable instruments and assignment of choses in action It also looks at defective transfers of property and the resulting proprietary claims including those contingent on tracing the tort of conversion bailment and security interests By bringing together areas often scattered throughout company law commercial law trusts and tort textbooks it enables readers to see common themes and issues and to make otherwise impossible generalisations across different contexts about the nature of the concepts English law applies Throughout the book concepts are explained rigorously with reference to how they are used in commercial practice and everyday life The book will be of use to students on undergraduate commercial law courses or related LLM courses as well as those on integrated property law courses and particularly specialised personal property modules It will also be useful to academics and practitioners working in the area Personal Property Law Yock Lin Tan, 2014 **A Treatise on the Law of Sale of Personal Property** Judah Philip Benjamin, 1868 **Personal property**

law in Nigeria Mike A.A. Ozekhome, 2019 This book addresses core issues of personal property law in Nigeria from a comparative perspective It offers a detailed account of the laws governing personal property and the different lightweight reforms undertaken mainly through case law before the enactment of the Secured Transactions in Movable Assets Act in 2017 The book draws insights from the United States UCC article 9 being unarguably the first law that introduced the concept of modern secured transactions law and was influential to many common and civilian law systems in reforming their personal property laws Given that personal property law is fairly new in Nigeria and also in Africa in general the main aim of the book is to provide judges and academic researchers with a rich collection of tested solutions from jurisdictions that have experimented with modern secured transactions law for several decades The primary and secondary works that were referenced in the book have tracked the different epochal shifts in legal thinking and their significances This may assist scholars and judges in Nigeria to come up with bespoke interpretations of the Act and solutions to underlying problems on credit and security that will satisfy the local conditions as opposed to copying the unaltered solutions from the United States and other advanced systems *Personal Property Law* Sarah Worthington, 2000-08 This casebook covers the philosophy and concepts of personal property law and the impact of evolving business practices on the development of the law

Bell, 1989 The aim of this book is simply stated it is to examine in the context of English and Irish law what interests may exist in personal property ie property other than land and how those interests operate This is a complex task however it involves bringing together and exploring the common foundations of matters that are generally but misleadingly presented as belonging to entirely separate legal categories Thus on the one hand much of what is discussed falls within the field of commercial law eg sale of goods hire purchase work and materials contracts bills of exchange pledges liens company charges and corporate insolvency On the other hand much would be classified under that amorphous head equity eg equitable interests secret trusts

priorities and tracing The book also finds a coherent home for matters that have no happy place in other types of work gift largely ignored elsewhere assignment of choses in action sometimes covered in books on equity sometimes in works on the law of contract and possession relegated too often to works on jurisprudence *A Dictionary of American and English Law* Stewart Rapalje, Robert Linn Lawrence, 1883 Consequences of Possession Eric Descheemaeker, 2014-05-19 The first coherent analysis of the topic of possession from a comparative and historical legal perspective The volume comprises contributions from some very distinguished scholars from the civilian tradition Germany Italy as well as the common law England and mixed legal systems Quebec Scotland South Africa **The American Law Register and Review**, 1896

Personal Property Law Michael G.
