Personality Measurement And Theory:

Personality Paul Kline, 2016-09-21 Originally published in 1983 and written in the tradition of the British School of Psychology Spearman Burt Eysenck Cattell this book from a well known author was exceptional at the time in its attempt to wed quantification and psychological theory in the study of personality The student is presented with a discussion of the different methods of measuring personality and the various findings which have been made The results are then discussed in the light of psychological theories of personality and here the author stresses the need for a theory with a properly quantified bias However the emphasis on findings from measurement and not the measurement itself makes the book psychological truly about personality and not simply another text on psychological measurement *Personality* Paul Kline, 2015-06-11

Assessment via Questionnaires Alois Angleitner, Jerry S. Wiggins, 2012-12-06 ALOIS ANGLEITNER and JERRY S WIGGINS
The personality questionnaire has been with us for more than 60 years It has been and still is the most popular method of personality assessment and it no doubt will continue to be so The method has been sharply criticized since its inception e g Allport 1921 Watson 1933 Ellis 1946 Janke 1973 and this criticism is also likely to continue The long standing indifference of test constructors to criticisms of their craft is brought home by noting the similarities between objections raised many years ago and those that are offered today Gynther Green 1982 Within this context one might well ask why a book on personality questionnaires should appear at this time Despite the centrality of the personality questionnaire to personality assessment there are to our knowledge no recent books on the general topic of personality questionnaires There are of course books on specific instruments e g Dahlstrom Welsh Dahlstrom 1972 1975 books on interpretation of specific instruments e g Comrey 1980 and books on specific issues such as response styles e g Block 1965 Although not specifically focused on personality questionnaires Bass and Berg's 1959 *Objective Approaches to Personality Assessment* dealt with a number of issues that are central to questionnaires

Personality Lawrence A. Pervin, 1975 Ce document est le fruit de l'expérience de l'auteur comme enseignant sur le phénomène de la personnalité Il aborde la personnalité sous l'angle de théories spécifiques alternatives la conception usuelle de ce que représente la personnalité Il est également question du recueil et de l'analyse des données de l'évaluation de la personnalité
