Personality Of The Alcoholic Guises Of D:

Causes and Consequences of Alcohol Abuse: Overview of federal activities on alcohol abuse and alcoholism; alcoholism, biological and environmental determinants United States. Congress. Senate. Committee on Governmental Affairs, 1988 **Causes and consequences of alcohol abuse** United States. Congress. Senate. Committee on Governmental Affairs, 1988 *Introduction to Alcoholism Counseling* Jerome David Levin, 1995 Beginning with the chemical and pharmacological aspects of alcoholism this book goes on to examine the medical social anthropological and psychological foundations of the problem This second edition features discussion on new treatment Treatment Of Alcoholism And Other Addictions Jerome D. Levin, 1987 This comprehensive volume provides a solid understanding of the inner world of alcoholism the dynamics of this disorder and a range of therapeutic interventions to improve the effectiveness of psychotherapy in treating alcoholic patients Levin s approach to the treatment of alcoholism serves as a model for the therapy of other addictions as well He draws on material from across the sciences along with the basic principles of psychoanalysis focusing on the concepts of transference countertransference therapeutic alliance resistance and internalization and their application to the psychodynamic treatment of individuals involved in self help programs such as Alcoholics Anonymous The emphasis is basically on the self psychology developed by Heinz Kohut and his followers This is a developmental view that considers alcoholism a disorder of self a form of self pathology the essential characteristic being compulsiveness The disorder is seen in terms of ego and self deficits stemming from failure in internalization of the functions performed by the idealized self object A regression to or a fixation at pathological narcissism results The addict attempts to self medicate this deficit so as not to appear dependent on others This accounts for the dependency conflicts that are so evident in alcoholics and other addicts What must be internalized is not alcohol but the capacity to perform the functions of alcohol This process of replacement is the thrust of the therapy Alcoholism and substance abuse result in pervasive damage to the individual s physical mental and spiritual existence and have drastic consequences to their families and to society at large This book is a major step toward meeting the critical need and demand for effective treatment from Book Jacket **Quarterly Journal of Studies on Alcohol** , 1987 Includes sections Activities of the Research Council on Problems of Alcohol and Current literature The Biology of Alcoholism Benjamin Kissin, Henri Begleiter, 1971 The International Journal of the Addictions , 1990

Commonalities in Substance Abuse and Habitual Behavior Peter K. Levison, Dean R. Gerstein, Deborah R. Maloff, 1983 Abstract Nine contributed papers comprise a review and assessment of the scientific basis for a commonalities approach to research on substance abuse and habitual behavior The papers are grouped under 3 principal types of commonalities sociocultural sociologic perspective of drug abuse a cultural approach to troublesome habitual behaviors psychological environmental control a learning theory approach the addictive personality and biological opiate drug receptors endorphins and addictiveness brain behavior associations with endogenous opioids and genetic considerations Abused substances e g

ethanol and maladaptive behaviors are discussed from the perspectives of the different disciplines e.g. psychology toxicology
wz **Journal Mondiale de Psychosynthese**, 1983 **University of California Union Catalog of Monographs**
Cataloged by the Nine Campuses from 1963 Through 1967: Subjects University of California (System). Institute of
Library Research, University of California, Berkeley, 1972 **Contemporary Authors, New Revision Series**
CONTEMPORARY., 1981 **Social Aspects of Alcoholism** Benjamin Kissin, Henri Begleiter, 1976-09-01 The first three
volumes of this series have dealt with materials which generally justify the title *The Biology of Alcoholism* This is only
remotely true of the present volume *Social Aspects of Alcoholism* or of the final volume to come *Treatment and Rehabilitation*
Except for small portions of the treatment section which involve pharmacotherapy much of these last two volumes deals with
the psychological aspects of alcoholism and still more with the social It is interesting to review the evolution of this new
pattern over the past seven years a pattern which had it existed initially would have resulted if not in a different format at
least in a different title Our initial selection of areas to be covered was influenced by our desire to present as hard data as
possible in an attempt to lend a greater aura of scientific rigor to a field which was generally considered as soft When we
completed our review of this material in volumes 1-3 we recognized that what we might have gained in rigor we had more
than lost in completeness These volumes presented a picture of a biological disease syndrome for which the remedies and
preventive measures were presumably also biological And yet most workers in the field readily accept the significant
contributions of psychological and social factors to the pathogenesis and treatment of alcoholism *Actions of Alcohol*
Henrik Wallgren, 1970 **Actions of Alcohol: Chronic and clinical aspects** Henrik Wallgren, Herbert Barry, 1970
Treatment and Rehabilitation of the Chronic Alcoholic Benjamin Kissin, 1977-01-01 The present volume contains a
large variety of treatment approaches to the long term rehabilitation of the alcoholic ranging from the biological to the
physiological to the psychological to the social The multiplicity of proposed therapies each of which has its strong proponents
suggests that alcoholism is either a complex medical social disease syndrome requiring a multipronged treatment approach
or a very simple illness for which we have not yet discovered the remedy The latter may indeed be true but we cannot use
what we do not know and must use what we do know We do however have the obligation to be responsible in our treatment
to provide the best that is known at this time and to be discriminating in our prescription of appropriate treatment for
individual patients If there is one conclusion we would like to offer in our preface it is that alcoholics constitute a markedly
heterogeneous population with widely disparate needs for whom at least at our present level of knowledge a broad spectrum
of treatment modalities is necessary If this is true then probably most of this book has validity With this volume on the
treatment and rehabilitation of the chronic alcoholic we bring to completion our five volume series *The Biology of Alcoholism*
As the title of the present volume indicates we have departed from our original intention to deal solely with biological aspects
of the syndrome and have attempted rather to produce a more comprehensive work **Psychiatrie Der Gegenwart** Karl

Peter Kisker,1972 Encyclopedic Handbook of Alcoholism E. Mansell Pattison,Edward Kaufman,1982 **Alcohol and Health** United States. Department of Health, Education, and Welfare,1973 **Controversy in Psychiatry** John Paul Brady,Harlow Keith Hammond Brodie,1978 Treatments of Psychiatric Disorders ,1989
