Personality Orientation:

Personality Orientation Maria Neimark,1976 **Control of Human Behavior, Mental Processes, and Consciousness** Walter J. Perrig,Alexander Grob,2013-05-13 In this book an international group of leading scientists present perspectives on the control of human behavior awareness consciousness and the meaning and function of perceived control or self efficacy in people s lives The book breaks down the barriers between subdisciplines and thus constitutes an occasion to reflect on various facets of control in human life Each expert reviews his or her field through the lens of perceived control and shows how these insights can be applied in practice **Understanding Depression** Janet Stoppard,2014-01-14 Women are particularly vulnerable to depression Understanding Depression provides an in depth critical examination of mainstream approaches to understanding and treating depression from a feminist perspective Janet Stoppard argues that current approaches give only partial accounts of womens experiences of depression and concludes that a better understanding will only be achieved when womens experiences and lived realities are considered in relation to the material and social conditions in which their everyday lives are embedded The impact of this change in approach for modes of treatment are discussed and solutions are suggested Understanding Depression offers new insights into the problem and its treatment It will prove useful to those with an interest in depression and gender as well as mental health practitioners **Conscious Orientation** J H Van Der Hoop,2018-10-24 Routledge is now re issuing this prestigious series of 204 volumes originally published between 1910 and 1965 The titles include works by key figures such asC G Jung Sigmund Freud Jean Piaget Otto Rank James Hillman Erich Fromm Karen Horney and Susan Isaacs Each volume is available on its own as part of a themed mini set or as part of a specially priced 204 volume set A brochure listing each title in the International Library of Psychology series is available upon request Current Controversies and Issues in Personality Lawrence A. Pervin,1978 Focus on issues that define the field of personality psychology Evenhanded coverage of current approaches to personality Examination of public policy implications of different theoretical views Engaging writing style that involves students in examining issues critically Personality and Interpersonal Communication James C. McCroskey,John A. Daly,1987-06 Should studies of personality be central to communication research Should the usefulness of the individual differences approach to interpersonal communication be questioned McCroskey and Daly while not negating the value of situational research stress the importance of communication research which focuses on individual differences particularly personality type differences This comprehensive and in depth study will show those who tend to overestimate the influence of the situation that the person is also a critical part of the communication equation **Personality Subtypes Among Adult Children of Alcoholics** Anu Radha Sharma,1990 *An Introduction to Theories of Personality* Robert B. Ewen,1988 *Introduction to Personality* E. Jerry Phares,1991 This text introduces the major theories research techniques and assessment methods in contemporary personality psychology Each theoretical chapter is followed by a research and assessment chapter with summary evaluations

intended to help students recognize each theory's strengths and weaknesses. The text can be used by students with little or no background in psychology beyond a general introductory course. It offers a detailed discussion of the biological and environmental determinants of personality.

Volition and Personality Julius Kuhl, Jürgen Beckmann, 1994. This is an impressive book which presents a profoundly new approach to analyzing human behavior. The fundamental concept is to focus on how people link motivation with action and why they do or do not stick with their original intentions. The fascinating studies reported here attempt to separate people into two groups: 1. State-oriented individuals who focus under stress on past, present, or future states rather than on options available for action; versus 2. Action-oriented individuals who focus under stress on action alternatives. This book will be of great interest to both behavioral and cognitive psychologists, psychophysicists, and specialists in sport as well as aviation psychology.

The Handbook of Social Psychology: The individual in a social context Gardner Lindzey, Elliot Aronson, 1969.

National 4-H Club News, 1945.

Disorders of the Self Marshall L. Silverstein, 2007. In this thought-provoking book, Marshall L. Silverstein applies a self-psychological viewpoint as formulated and broadened by Kohut to understanding personality disorders. He recasts them as disorders of the self, grouping them into one of three patterns: centering on a) combating devitalization, b) forestalling fragmentation, or c) seeking alternative pathways to a cohesive self. He describes each group, outlines its main theoretical viewpoints, and then offers a self-psychological reformulation of how the behavior and symptom patterns represent deficits in self-cohesion. In the first deficit pattern, devitalization in schizoid, schizotypal, and avoidant personality disorders, the patient's central problem is maintaining vitality when the need for affirmation or admiration has been ignored or insufficiently acknowledged. In the second pattern, in paranoid, obsessive-compulsive, and borderline personality disorders, patients harbor fears that their fragile self-cohesion may come undone. In the third pattern, in dependent, histrionic, and antisocial personality disorders, patients attempt but often fail to develop compensatory structures to repair their chronically injured self-cohesion.
