Personcentred Counselling Therapeutic And Spiritual Dimensions:

Person-Centred Counselling Brian Thorne, 1991 This book draws together chapters articles and lectures from some twelve years of Brian Thorne's professional life as a person centred therapist

Person-Centred Therapy Brian Thorne, Elke Lambers, 1998-11-28 In this scholarly book Thorne and Lambers have gathered together significant contributions to the advancement of person centred theory and practice from leading exponents of the approach in Austria Belgium Germany The Netherlands Norway and the United Kingdom I found the book both stimulating and challenging The insight it offers into working with difficult clients is invaluable and the sections on theory stretched me in my understanding of the approach I strongly recommend it to anyone from within or without the person centred tradition who wants to achieve a real understanding of the approach post Rogers and get to grips with the vibrancy and vitality of person centred thought in Europe

Counselling The Journal of

Person-Centred Therapy Brian Thorne, Elke Lambers, 1998 Contributors from all over Europe cover a wide range of person centred issues and provide an insight into a professional network whose contribution to the field is both substantial and significant

Person-Centred Counselling in Action Dave Mearns, Brian Thorne, 1999-09-13 The discussion of empathy acceptance and congruence is central and should be required reading for all trainees working to understand the richness of these core concepts outstanding

Counselling The Journal of the British Association for Counselling Widely regarded as a classic text *Person Centred Counselling in Action* has now been revised and updated to take account of recent developments in theory and practice This bestselling exploration of one of the most popular approaches in counselling today is invaluable for students and experienced counsellors alike The authors explore the philosophical base to the approach originated by Carl Rogers and stress the considerable persona

Person-Centred Counselling Training Dave Mearns, 1997-11-28 This thoughtful and thought provoking book is essential reading not only for those involved in the training of counsellors within the person centred approach but also for individuals who may have simplistic dismissive or otherwise ill informed notions of the depth of self awareness required of the person centred practitioner and the far reaching challenges offered by the approach For counsellors who define themselves as person centred but who have had no substantial training it should be compulsory reading

British Journal of Guidance and Counselling Person centred counselling probably requires more training and a greater intensity of training than most other mainstream counselling approaches but

Exploring Therapy, Spirituality and Healing William N. West, 2010-12-13 What place does spiritual need and healing have in the counselling room Denying the spiritual dimension of personal distress can be potentially hurtful to clients but the issue of spirituality is also fraught with professional and ethical issues for therapists This book draws on original research to move the debate about spiritual need forwards in relation to therapeutic practice supervision and training An international team of contributors offer a diverse range of perspectives to critically explore a wide spectrum of spiritual issues including prayer pastoral care and traditional healing Edited by a leading figure

in the field this book illuminates experiences of both clients and practitioners through detailed case vignettes. Draws on cutting edge research in this growing field. Invites readers to address their own therapeutic practice with hands on discussion points. This measured and thoughtful approach provides a fascinating insight to an often complex and controversial topic. As such the book is essential reading for trainees and practitioners of counselling and psychotherapy. **The Mystical Power of Person-Centred Therapy** Brian Thorne, 2002-05-22 Brian Thorne's latest book is likely to cause something of a furore in the counselling and psychotherapy world and more particularly among person centred practitioners and pastoral counsellors. The **Mystical Power of Person Centred Therapy** takes the later work of Carl Rogers with the utmost seriousness and as a result moves into unexpected and perhaps for some dangerously controversial terrain. Rogers discovered towards the end of his life that he had greatly underestimated both the mystical quality of the therapeutic process and the power of the person centred approach to give access to the spiritual dimension of experience. Professor Thorne takes this concept further and explores the implications of regarding person centred therapy as an essentially spiritual discipline. The outcome is a book which not only provides new and startling challenges for therapists of all orientations but also suggests that the person centred way of being may have a major contribution to make to the resolution of some of humanity's seemingly intractable problems. It should appeal not only to therapists but also to clergy and all those concerned with the spiritual evolution of humanity. In the light of the events of September 11th 2001 and their aftermath such a book could not come at a more opportune time.

Person-Centred Counselling and Christian Spirituality Brian Thorne, 1998 This second volume of Brian Thorne's collected works shows convincingly that the spiritual needs and yearnings of many clients presenting themselves to secular counsellors can no longer be ignored, trivialised or pathologised. The book constitutes an impassioned plea both to person centred therapists to acknowledge the centrality of spiritual issues for many of their clients and also to Christians to embrace the richness of their spiritual tradition without becoming entangled in the death dealing complexity of religious and institutional power mongering.

Handbook of Individual Therapy Windy Dryden, 1996-08-22 The **Handbook of Individual Therapy** presents a concise and accessible introduction to 12 key approaches to individual therapy. It is a completely updated and rewritten new ed of the highly successful **Individual Therapy** published by OUP in 1990.

Counselling and Spiritual Accompaniment Brian Thorne, 2012-08-02 **Counselling and Spiritual Accompaniment** presents the key spiritually focused writings of Brian Thorne, one of the most influential thinkers on the convergence of spirituality with counselling along with new material reflecting his recent work in spiritual accompaniment. Reflects the increasing focus on spiritual issues as an essential part of therapy. Represents the culmination of an intellectual quest undertaken by the most senior figure in the field to integrate spirituality with counselling and the person centred approach. Features chapters that span thirty years of work along with new writings that bring readers up to date with the author's most recent work in spiritual accompaniment. An invaluable guide for counsellors and therapists who acknowledge the importance of spirituality to their clients but doubt

their abilities to help in this area **Good Practice in Psychotherapy and Counselling** Don Feasy, 2000 This book addresses the needs of trainees and practitioners in psychotherapy and counselling and provides an understanding of the framework of the therapeutic relationship The approach is a practical one covering subjects including managing appointments the right setting for consultations referrals money and the importance of confidentiality and clear communication with clients Case studies are used in the form of vignettes to illustrate and clarify situations faced by those involved in the growing practice of psychotherapy and counselling **Developing Person-Centred Counselling** Dave Mearns, 1994-11-11 The SAGE Publications Person Centred Counselling Package 4 volume set 59 95 Individual price 69 96 Save 10 01 All the books you will need for your person centred courses in one discounted package Person Centred Therapy Today New Frontiers in Theory and Practice Dave Mearns Strathclyde University Brian Thorne University of East Anglia Individual price 17 99 At the risk of being directive I would say you should buy this book It contains some of the most stimulating and refreshing ideas to have emerged in the person centred literature since On Becoming a Person Person Centred Practice Person Centred Counselling in Action Second Edition Dave Mearns Strathclyde University Brian Thorne University of East Anglia Individual price 15 99 The discussion of empathy acceptance and congruence is central and should be required reading for all trainees working to understand the richness of these core concepts outstanding Counselling and Psychotherapy The Journal of the British Association for Counselling and Psychotherapy Person Centred Counselling Training Dave Mearns Strathclyde University Individual price 18 99 If you run a course of person centred counselling training or are thinking about it or are a student on a person centred course you should buy this book It is the first dedicated to person centred training and it is written by one of the very few people in the country who could have presented such complex material so comprehensively and with such clarity Person Centred Practice Developing Person Centred Counselling Dave Mearns Strathclyde University Individual price 16 99 This is a useful book for those who use person centred counselling in their practice or who are training to become person centred counsellors Counselling and Psychotherapy Journal The Journal of the British Association for Counselling and Psychotherapy Offer expires 30th September 2002 I found myself fascinated riveted by the accessibility of the prose and format and most importantly splendidly re engaged with the person centred approach The book will prove most useful to practitioners and students of the person centred approach to counselling but those from other orientations might also be agreeably surprised by its depth and by Mearns dare I say analytical approach to his subject I found his style of writing intelligent and clearly set out and whilst thoroughly academic it included lots of good clinical evidence and cameos there is nothing vague or highly idealised but rather a set of clear thinking rigorous chapters that make it a most worthwhile addition to the current counselling literature Self Society Crucial areas such as the therapeutic alliance and process the development of the counsellor and the person centred perspective in relation to psychopathology are examined in this volume An introduction focuses on the importance of training in depth expressing

caution about adopting the more advanced methods illustrated in the book without rigorous preparation and provides a summary of the central features of person centred counselling Following on from this the volume s 30 sections are organized into six categories each of which will help practising counsellors improve their skills within the person centred approach
