of the social environment in creating disadvantage and to issues of power and privilege and of the systemic oppression of disabled people This book provides an introduction to the expanding body of critical work on disability by theorists from a range of perspectives illustrating ways in which their theories and insights contest or support assumptions within rehabilitation theory The book argues for a cross fertilisation of ideas and challenges hierarchies of power in which nurses and therapists privilege their own assumptions perspectives and knowledge while overlooking or ignoring the perspectives both of disabled people and of other theorists Provides an accessible introduction to current theoretical perspectives on disability Demonstrates how these theoretical perspectives can inform a practitioner s approach to rehabilitation Relevant for all the rehabilitation and health care professions      **Perspectives on Evidentiality in Spanish** Carolina Figueras
