Conservative Thought and American Constitutionalism Since the New Deal Johnathan O'Neill,2022-11-29 In this work of intellectual history the author identifies four transformations in federal government that followed the New Deal the rise of the administrative state the erosion of federalism the ascendance of the modern presidency and the development of modern judicial review He then considers how schools of conservative thought traditionalists neoconservatives libertarians Straussians responded to each transformation *Rethinking Theory and History in the Cold War* Richard Saull,2001 Rethinking Theory and History in the Cold War focuses on what we mean by politics and international relations and how such assumptions have come to determine our understanding of the Cold War Using an historical materialist method the author criticizes conventional conceptions of international politics that tend to focus on the agency of and relations among states and offers an alternative historical sociology of the Cold War through an analysis of the relationship between formal political authority and socio economic production Seen from this perspective the state the modern conceptions of politics can be seen as products of a capitalist modernity in which politics is based on the separation of the spheres of politics in the state and economics in civil society **BOOK JACKET** *The Enemy of My Enemy* George Michael,2006 In the violent world of radical extremists the enemy of my enemy is my friend This study reveals how that precept plays out in the unexpected bonding between militant Islam and the extreme right in America and Europe It provides an insightful and sane look at the possibilities for collaboration between these groups
