Perspective on the World Christian Movement, 1992 Steven C. Hawthorne, Ralph D. Winter, 1992-08-01 [Perspectives on the World Christian Movement](#) Ralph D. Winter, 1992 This book is a multi faceted collection of readings focused on the biblical historical cultural and strategic dimensions of the task of world evangelization The editors have pooled the contributions of over 70 authors to provide laymen and college students with an introduction to the history and potential of the World Christian Movement a movement of men and women who have responded with courage and conviction to the challenges of this task Back cover **The Ongoing Role of Apostles in Missions** Don Dent, 2019-02-15 Numerous trends are presently converging in ways that make this moment in mission history significant These include the growth of short term service the multiplication of mission organizations local churches sending missionaries without an agency and the internationalization of missions It is crucial in the midst of such change that we not lose connection with the New Testament

model of the missionary apostles Apostles now commonly called missionaries are God's gift for the initial planting phase of the church among every people to the end of the age This unique church planting role is the forgotten foundation of the church Much of the ineffectiveness in missions is due to our attempts to build Christ's church on a different foundation This book will examine five critical questions from the perspective of biblical scholarship history and contemporary experience Why are missions minded Evangelicals reluctant to identify missionaries as apostles considering that the two words have the same root meaning How is apostolos used in the New Testament and specifically is it sometimes used as a designation for missionaries How should we conceptualize an ongoing role for missionary apostles that does not detract from the crucial unique role of the original Apostles What ministry pattern does the New Testament record from the lives of the early missionary apostles How should an awareness of missionary apostles guide our mission efforts today

Receptor-Oriented Communication for Hui Muslims in China Enoch Jinsik Kim, 2018-04-18 There are many books that highlight the need and importance of mission toward unreached people Unfortunately few of them deal with the importance of understanding the real life of unreached people and how to analyze them This book identifies conceptual issues for the development of receptor oriented communication strategies among young educated urban Hui YEU Hui Muslims in China's northwestern cities in order to achieve culturally relevant churches in those areas It is written to help not only those who are interested in the unreached but also those who are interested in Muslim evangelism urban sociology biblical exegesis contextual church planting communication and mission strategy Enoch Jinsik Kim utilizes a new approach virtual community mission for planting offline churches that integrates the use of local church driven Internet community traditional media and offline task teams from a multi ethnic local church While the research focuses on the Chinese Muslim context the identification of the young urban and educated as a strategic group for mission can be applied in other Muslim and non Muslim contexts This research is useful to cross cultural communicators church planters and all those interested in interpersonal relationships

The Priesthood of All Believers and the Missio Dei Henry Joseph Voss, 2016-10-25 The priesthood of all believers is a pillar undergirding Protestant ecclesiology Yet the doctrine has often been used to serve diverse agendas This book examines the doctrine's canonical catholic and contextual dimensions It first identifies the priesthood of all believers as a canonical doctrine based upon the royal priesthood of Christ and closely related to the believer's eschatological temple service and offering of spiritual sacrifices chapters 1-3 It secondly describes its catholic development by examining three paradigmatic shifts shifts especially associated with Christendom chapters 4-6 and a suppression of the doctrine's missional component Finally the book argues that a Christian doctrine of the priesthood of all believers should be developed with a Christocentric Trinitarian understanding of the missio Dei This suggests there are especially appropriate ways for the royal priesthood to relate to the Father to the Son and to the Holy Spirit A canonically and catholically informed priesthood of all believers leads contextually

to particular ecclesial practices These seven practices are 1 Baptism as public ordination to the royal priesthood 2 Prayer 3 Lectio Divina 4 Ministry 5 Church Discipline 6 Proclamation and 7 the Lord s Supper as the renewal of the royal priesthood

The Short-term Missions Boom Michael J.
