Perspectives Insights And Priorities 17 Leaders Speak Freely Of Librarianship:

Monoculture F. S. Michaels, 2011-04-25 Winner of the George Orwell Award One of The Atlantic's best books of the year As human beings we've always told stories stories about who we are where we come from and where we're going Now imagine that one of those stories is taking over the others narrowing our diversity and creating a monoculture Because of the rise of the economic story six areas of your world your work your relationships with others and the environment your community your physical and spiritual health your education and your creativity are changing or have already changed in subtle and not so subtle ways And because how you think shapes how you act the monoculture isn't just changing your mind it's changing your life In *Monoculture* F S Michaels draws on extensive research and makes surprising connections among disciplines to take a big picture look at how one story is changing everything Her research and writing have been supported by the Social Sciences and Humanities Research Council of Canada the Killam Trusts and regional and municipal arts councils Michaels has an MBA and completed five years of PhD studies in Organizational Analysis She lives in British Columbia Canada A single lucid narrative that's bound to first make you somewhat uncomfortable and insecure then give you the kind of pause from which you can step back and move forward with more autonomy authenticity and mindfulness than ever The Atlantic A thin enrapturing gem It's accessible sensible exactly the sort of book that should have and still could should take off and create a tiny little dent in books Kenyon Review A smart and realistic guide to first recognizing the monoculture and the challenges of transcending its limitations Maria Popova BrainPickings.org I found myself reading non stop underlining like crazy an astute explanation about what I've been feeling recently something I couldn't put my finger on Michaels writes in clear energetic prose that's thoughtful engaging and unforced She defines and analyzes without judgment or insistence a breath of fresh air NPR a singularly brilliant and accessible analysis of some of the fundamental assumptions and driving principles of our time Comment Magazine 5 stars The cause and effect of our world is more surprising than you'd think With intriguing notions about the driving ideas of stories in every shape of our life *Monoculture* is an incredibly fascinating way about how the mind works and today's consumer culture Midwest Book Review If you just read one book this year read this one BuriedInPrint.com
