

Evaluating Realist Perspectives

- Left Realists rely heavily on victim studies, such studies ignore domestic violence and also crimes where people aren't aware they're a victim
- Left Realists focus on street crime at the expense of white-collar or corporate crime which is just as harmful
- The rise in street crime could be due to an increase in property theft and the need for victims to get crime numbers for insurance and so distort the true extent of street crimes as also it's easier to report such incidence with the proliferation of mobile phones

Miethe,Robert F. Meier,1994-07-01 Theories of criminality and theories of victimization have traditionally been discussed as though they bore no relationship to one another Yet a complete explanation for crime must examine both the decision to engage in crime by an offender and the everyday actions of ordinary citizens that increase vulnerability to criminals The integration of these approaches yields testable models that have greater predictive power than could be obtained by looking only at models of offenders or models of victim behavior A more general perspective that accounts for both the decision to engage in crime and the selection of particular crime targets is developed and tested Integrating a Victim Perspective within Criminal Justice Adam Crawford,Jo Goodey,2019-11-12 As numerous academic and political commentators have noted the implications of introducing a victim s perspective into the delicate balance between state and offender is likely to be a key issue in the future of criminal justice This book seeks to outline the contours of the relevant debates drawing together contributions from prominent international and national commentators from areas including criminology law philosophy social policy politics and sociology **Serving Crime Victims and Witnesses** Peter Finn,Beverly N.
