Perspectives On Educational Certificate Programs:

Perspectives on Educational Certificate Programs Margaret E. Holt, George J. Lopos, 1991 **Educational Perspectives**, 2006 *Resources in Education*, 1995-06 **Chief Academic Officers' Perspectives on Workforce Development in Their Community College** Timothy M. Jackson, 2002 **Handbook of Research on Teaching** Drew Gitomer, Courtney Bell, 2016-05-19 The Fifth Edition of the Handbook of Research on Teaching is an essential resource for students and scholars dedicated to the study of teaching and learning. This volume offers a vast array of topics ranging from the history of teaching to technological and literacy issues. In each authoritative chapter, the authors summarize the state of the field while providing conceptual overviews of critical topics related to research on teaching. Each of the volume's 23 chapters is a canonical piece that will serve as a reference tool for the field. The Handbook provides readers with an unparalleled view of the current state of research on teaching across its multiple facets and related fields. **Education, Research and Perspectives**, 2006 **Perspectives on Early Childhood Education** David Elkind, 1991 The introductory chapter in this book provides a historical overview of the family and schools in the premodern, modern, and postmodern eras in the United States. The introduction also reviews the contributions of several important figures in early childhood education and suggests that the battle in early childhood education in the postmodern world will be between the need to be economically competitive and humanitarian needs. The other 24 chapters in the book address this issue and reiterate the underlying theme that the social need for adequate funding, training, and staffing for early childhood education must be given high priority by government and industry. Specific topics include: 1. physical and health education, 2. counseling, 3. teacher education, 4. family education and family support, 5. school readiness, 6. literacy education, 7. art education, 8. the national education goals, 9. migrant children, 10. child care for black children, 11. mathematics learning, and 12. science education. Twenty-three of the articles were written by representatives of various organizations concerned about early childhood education. Bibliographies or reference lists are appended to individual chapters. BC [A Community-Based Approach to Literacy Programs: Taking Learners' Lives Into Account](#) Peggy A. Sissel, 1996-11-08 New areas of interest and scholarship are emerging in relation to the needs, concerns, and contexts of adult learners in literacy programs. A learner's gender, ethnicity, and cultural and educational background, in conjunction with the learning setting, all affect the Adult Basic Education experience. Understanding these aspects of learners' lives is critical to meeting their learning needs. Encouraging a community-based approach that takes account of the reality of learners' lives, this volume offers suggestions for incorporating knowledge about a learner's particular context, culture, and community into adult literacy programming. The purpose is to encourage reflection and discussion among practitioners, program developers, and policy makers as they work toward meeting the needs of their own communities of various kinds.
