Perspectives On Human Communication:

Perspectives on Human Communication Billie J. Wahlstrom, 1992 *Perspectives on Human Communication* B. Aubrey Fisher, 1978 *Perspectives on Human Communication* COSPAR., 1978 Fundamentals of Human Communication James C. McCroskey, Virginia P. Richmond, 1996 **Non-Western Perspectives on Human Communication** Min-Sun Kim, 2002-07-23 What it means to be a self and a self communicating and being in a particular culture are key issues interwoven throughout Min Sun Kim's impressive text *Non Western Perspectives on Human Communication*. Going beyond cultural descriptions or instructions on adapting to specific cultures, the author interrogates the very core assumptions underlying the study of human communication and challenges longstanding individualistic Western models on which much intercultural research is based. Kim proposes a non western way of conceptualizing identity or the self, the cornerstone of cultural research, illuminating how traditional western and non western views can be blended into a broader, more realistic understanding of cultures and communication. Grounding her work in a thorough knowledge of the literature, she challenges students and researchers alike to reexamine their approach to intercultural study. Features: Interrogates embedded assumptions about the traditional Western study of human communication with stunning thought provoking insight. Illuminates issues surrounding culture and identity formation and challenges the reader to examine not only the study of human communication but its engagement in everyday life. Informs complex academic theory with stellar writing, poignant examples and careful analysis. Invites scholars and students to explore and integrate a long overdue multicultural perspective on human communication. About the Author: Min Sun Kim, Ph.D., Michigan State University, is Professor in the Department of Speech at the University of Hawaii at Manoa. Her research focus is the role of cognition in conversational styles among people of different cultural orientations. She is currently serving as an Associate Editor for *Communication Reports* and also as a reviewer for various communication journals.

An Ecological Perspective on Human Communication Theory Jo Ruth Liska, Gary Cronkhite, 1995. *AN ECOLOGICAL PERSPECTIVE ON HUMAN COMMUNICATION THEORY* introduces communication students to both research and theory at an undergraduate level and avoids extensive discussion of philosophical and epistemological issues. The ecological interdisciplinary approach synthesizes information from diverse fields including anthropology, biology, linguistics, psychology, and sociology. A student manual at the back of the book includes activities, discussion questions, recommended readings, and videos.
