Giuliano de' Medici Josephine Jungic, 2018-04-13 Most modern historians perpetuate the myth that Giuliano de Medici 1479 1516 son of Lorenzo the Magnificent was nothing more than an inconsequential womanizing hedonist with little inclination or ability for politics In the first sustained biography of this misrepresented figure Josephine Jungic re evaluates Giuliano s life and shows that his infamous reputation was exaggerated by Medici partisans who feared his popularity and respect for republican self rule Rejecting the autocratic rule imposed by his nephew Lorenzo Duke of Urbino and brother Giovanni Pope Leo X Giuliano advocated restraint and retention of republican traditions believing his family should be first among equals and not more As a result the family and those closest to them wrote him out of the political scene and historians relying too heavily upon the accounts of supporters of Cardinal Giovanni and the Medici regime followed suit Interpreting works of art books and letters as testimony Jungic constructs a new narrative to demonstrate that Giuliano was loved and admired by some of the most talented and famous men of his day including Cesare Borgia Michelangelo Buonarroti Niccol Machiavelli Leonardo da Vinci and Raphael More than a political biography this volume offers a refreshing look at a man who was a significant patron and ally of intellectuals artists and religious reformers revealing Giuliano to be at the heart of the period s most significant cultural accomplishments Picturing German Antiquity in the Age of Print Rachel Carlisle, 2025-10-01 Picturing German Antiquity in the Age of Print Art Archaeology and the Style All antica in Early Modern Augsburg examines the central role of print to local antiquarian pursuits and generation of a style all antica in early sixteenth century Augsburg Germany Working in the shadow of Holy Roman Emperor Maximilian I Augsburg s leading patrons including humanist Konrad Peutinger and the mercantile Fugger family documented local antiquities and commissioned new works of classicizing art and architecture visually asserting a genuine unbroken lineage to the city's past This study challenges earlier narratives by arguing that Augsburg's artists and printers did not directly copy Italian Renaissance models but instead manipulated the imported visual vocabulary according to local concerns The book brings together scholarly discourses on transalpine exchange scientific advancements in printmaking and reception of antiquity north of the Alps to offer a new understanding of art in early modern Augsburg and northern Europe at large Res: Anthropology and Aesthetics, 55/56 Francesco Pellizzi, 2010-01-15 Res 55 56 includes the editorial The absconded subject of Pop by Thomas Crow Absconding in plain sight by Roberta Bonetti Ivory towers by Richard Taws Are shadows transparent by Roberto Casati

Albury, 2016-04-08 Castiglione's Book of the Courtier Il libro del cortegiano 1528 a dialogue in which the interlocutors attempt to describe the perfect courtier was one of the most influential books of the Renaissance In recent decades a number of postmodern readings of this work have appeared emphasizing what is often characterized as the playful indeterminacy of the text and seeking to detect inconsistencies which are interpreted as signs of anxiety or bad faith in its presentation. In contrast to these postmodern readings the present study conducts an experiment What understanding does one gain of Castiglione's book if one attempts an early modern reading The author approaches The Book of the Courtier as a text in which some of its most important aspects are intentionally concealed and veiled in allegory W R Albury argues that this early modern reading of The Book of the Courtier enables us to recover a serious political message which has a great deal of contemporary relevance and which is lost from sight when the work is approached primarily as a courtly etiquette book or as a lament for the lost influence of the aristocracy in an age when autocratic nation states were coming into being or as an impersonal textual field upon which a free play of transformations and deconstructions may be performed **Encyclopedia of Italian Renaissance & Mannerist Art: Abacco to Lysippus** Jane Turner, 2000 The two alphabetically arranged volumes cover all of the major artistic developments in Italy from c 1300 to c 1600 a period that marks the Renaissance of the humanistic spirit of classical antiquity All three
