Charles J. Stewart, Craig Allen Smith, Robert E. Denton (Jr.), 1984-01 Persuasion durch Protest Jasmina Gherairi, 2015-02-12 Jasmina Gherairi analysiert alle an einem Protest beteiligten Akteure aus einer rhetoriktheoretischen Perspektive liefert ein umfangreiches Klassifikationsmodell von Protesttechniken und illustriert an zahlreichen zeitgenössischen Beispielen wann wie und warum Protest nicht erfolgreich war Wer protestiert will berzeugen Entgegen der landläufigen Meinung ist Protest keine planlose spontane Unmutsbekundung sondern eine Form erfolgsorientierter strategischer Kommunikation Es handelt sich dabei um die prinzipiell wiederholbare Anwendung von Protesttechniken mit denen Protestierende ihr Anliegen ausdrücken und zu berzeugen versuchen Persuasion and Influence in American Life Gary C. Woodward, Robert E. Denton, Jr., 2013-12-23 For more than twenty five years the authors have highlighted the complexities subtleties and pervasive influence of persuasive messages The seventh edition again blends historical rhetorical and social psychological approaches to persuasion theory The engaging discussions and multiple examples introduce the intricacies of social influence and highlight methods of presentation as well as evaluation The dynamic topic of persuasion presents a constantly changing palette for analysis The authors dissect theory and practice in multiple contexts from interpersonal

interactions to public communication and persuasive campaigns to advertising to politics Twitter YouTube and social networking sites offer new media for persuasive appeals The means of persuading one another changes constantly yet much of what was written by Aristotle continues to be relevant The production of persuasive messages and the study of message effects have been and will continue to be fertile ground for exploration Persuasion is an interactive process requiring willing and attentive participants Becoming responsible ethical and credible persuaders involves systematic thinking and informed preparation The skills required for planning composing and delivering effective messages are equally useful for evaluating messages received The seventh edition provides a thorough up to date discussion of classic and contemporary theories of persuasion to aid readers in developing skills as effective persuaders and as critical consumers of persuasive messages

Mass Persuasion Insights Sebastian Farnham, AI, 2025-02-21 Mass Persuasion Insights explores how institutions shape public opinion through various techniques examining the psychological and structural underpinnings of these efforts In today's world where information overload is common understanding these mechanisms is crucial The book delves into the strategic use of emotional appeals and framing effects highlighting how these tactics resonate with existing beliefs to achieve specific objectives The book approaches the topic by first introducing core psychological principles like cognitive biases and then analyzing how institutions governments corporations and advocacy groups apply these principles Through historical case studies and surveys the author examines persuasion techniques across different eras and contexts Did you know that effective persuasion often involves reinforcing existing beliefs rather than directly contradicting them Also the book highlights that mass persuasion isn't solely about manipulation but a complex interplay of factors The book progresses from foundational concepts to specific case studies culminating in a discussion of ethical implications and tools for critical analysis Readers will gain insights into identifying rhetorical devices and understanding the psychological mechanisms behind persuasion empowering them to navigate the modern information landscape more effectively Principles, Elements, and Types of Persuasion James Benjamin, 1997 In this text the author emphasizes practical applications as students master the research and theories of persuasion By acknowledging that both rhetorical and behavioral theories contribute to the understanding of persuasion this text blends production and consumption of persuasion *Power Persuasion* Martha Cooper, William L. Nothstine, 1992 This book is to provide a unique learning resource for the study of persuasion It is designed to explain basic theories and to review a variety of research about persuasion Each chapter of the text emphasizes an application and critical understanding of persuasion by reference to at least one extended example The book is organized in terms of three broad perspectives toward persuasion These three perspectives are the Classical Perspective the Symbolist Perspective and the Institutional Perspective These perspectives are intended to capture both classical roots and contemporary developments within the study of persuasion Much of the information contained in this book can easily be used by those who have practical concerns regarding the crafting and presentation of persuasive messages the book is not a how
