Peta Stories:

Of Ancestors and Ghosts Adeana McNicholl, Assistant Professor of Religious Studies Adeana McNicholl, 2024 In Part I of this book I argued that preta narratives participated in a larger world building process that negotiated the contours of the Buddhist cosmos and with it the place of the departed Through stories about encounters between humans and pretas Buddhist authors explored the place of the departed in a karmic cosmological system worked out how to best assist them and advocated for the importance of the sangha in facilitating these offerings These tales do not merely reflect the process through which the preta as a specific entity and rebirth category became distinguished from the ancestral departed but also participated in this process This illustrates the importance of viewing narratives in Rob Campamy's terms as argumentative Stories are not merely the distillation of more abstract doctrine but are sites for the construction of religious worldviews This illustrates that religious cosmologies are not laid down fully formed in doctrinal treatises They are cumulatively built over time and popular culture can do important work in the aggregative construction of cosmologies **Pigeon Trouble** Hoon Song, 2011-06-06 Pigeon Trouble chronicles a foreign born birdphobic anthropologist's venture into the occult craft of pigeon shooting in the depths of Pennsylvania's anthracite coal country Though initially drawn by a widely publicized antipigeon shoot protest by animal rights activists the author quickly finds himself traversing into a territory much stranger than clashing worldviews an uncanny world saturated with pigeon matters both figuratively and literally What transpires is a sustained meditation on self reflexivity as the author teeters at the limit of his investigation his own fear of birds The result is an intimate portrayal of the miners world of conspiracy theory anti-Semitism and whiteness all inscribed one way or another by pigeon matters and seen through the anguished eyes of a birdphobe This bestiary experiment through a phobic gaze concludes with a critique on the visual trope in anthropology's self reflexive turn An ethnographer with a taste for philosophy Song writes in a distinctive descriptive and analytical style obsessed with his locale and its inhabitants constantly monitoring his own reactions and his impact on others but always teasing out larger implications to his subject **Feeding the Dead** Matthew R. Sayers, 2013-09-12 The author calls attention to the importance of the Vedic domestic ritual codes in the creation of what has come to be known as classical Hinduism **In Defense of Animals** Peter Singer, 2013-05-20 Bringing together new essays by philosophers and activists In Defense of Animals The Second Wave highlights the new challenges facing the animal rights movement Exciting new collection edited by controversial philosopher Peter Singer who made animal rights into an international concern when he first published In Defence of Animals and Animal Liberation over thirty years ago Essays explore new ways of measuring animal suffering reassess the question of personhood and draw highlight tales of effective advocacy Lays out Ten Tips for Activists taking the reader beyond ethical theory and into the day to day campaigns for animal rights **Buddhist Rituals of Death and Rebirth** Rita Langer, 2007-08-07 Drawing on early Vedic sutras and Pali texts as well as archaeological and epigraphical material this book provides a thorough analysis of the rituals and social

customs surrounding death in the Theravada tradition of Sri Lanka Jagajiyoti ,1986 **Eco-terrorism Specifically Examining the Earth Liberation Front and the Animal Liberation Front** United States. The Dīpavaṃsa Hermann Oldenberg,1879 Animal Rights Harold D. Guither,1998 In the past decade philosopher Bernard Rollin points out we have witnessed a major revolution in social concern with animal welfare and the moral status of animals Adopting the stance of a moderate Harold Guither attempts to provide an unbiased examination of the paths and goals of the members of the animal rights movement and of its detractors Given the level of confusion suspicion misunderstanding and mistrust between the two sides Guither admits the difficulty in locating much less staying in the middle of the road The philosophical conflict however is fairly clear those who resist reform fearing that radical change in the treatment of animals will infringe on their business and property rights versus the new activists who espouse a different set of moral and ethical obligations toward animals From his position as a moderate Guither presents a brief history of animal protection and the emergence of animal rights describes the scope of the movement and identifies major players such as Paul and Linda McCartney and organizations such as People for the Ethical Treatment of Animals that are actively involved in the movement He concentrates on what is actually happening in the 1990s discussing in detail the possible consequences of the current debate for those who own use or enjoy animals in entertainment and leisure pursuits A reference work for students in animal sciences and veterinary medicine the book also poses questions for philosophers sociologists and public policymakers as well as animal owners animal and biomedical researchers and manufacturers and distributors of animal equipment and supplies The Dhammapada, Verses and Stories ,1990 **The Open Court** ,1924 *Elucidation of the Intrinsic Meaning* Dhammapāla,1980 *The Minor Anthologies of the Pali Canon: Vimānavatthu.
