I was counting down the seconds as I watched the clock. I didn't even hear what the teacher was saying. All I knew was I was ready to leave. It was Friday. I heard some chatter in the background, but I didn't listen. All I could think about was how good the food would be that night. I would order a thick juicy hamburger and some fries with extra ketchup. All of the waiters loved me at Jake's Hamburger. Stop. My parents had promised to take me there. Finally, the bell rang. I jumped up and ran to my locker. A lot of papers flew out. I just stuffed them back in, grabbed my things, and ran down the hallway. "Sarah," I heard my teacher call, "Don't forget about," as I ran out of the door. On Monday, I was back at school. "Oh, no, we are having a test," I thought. How could I have known? The teacher handed out the tests. I didn't know any of the answers to the multiplication or division problems.

1. Where was I when I was watching the clock?

2. Where were my parents taking me that night?

3. What was Sarah's teacher probably trying to tell her?

4. Do you think Sarah did well on the test? Why or why not?

5. What class was Sarah probably in when she was watching the clock?

Media Leticia Bode, Emily K. Vraga, 2020-06-29 This book highlights the diverse methods needed to study a complex media environment and the nuance and richness of the understanding gained by doing so by offering examples of political communication research considering multiple platforms simultaneously Political communication research that considers multiple media platforms is difficult and expensive to perform and therefore relatively rare Yet studying media platforms in isolation ignores the realities of the varied and complicated contemporary media experience where most individuals consume information from multiple media outlets Media platforms from traditional outlets such as newspapers and television to newer online platforms such as social media have proliferated in recent years This makes the media environment itself more complex as classic understandings of how the media function give way to a growing recognition of the hybrid media system where divisions between content and producers are opaque and where information is gleaned from increasingly diverse and numerous sources Studying political communication across platforms allows better understanding of which types of experiences and effects are universal and which are specific to particular platforms This book was originally published as a special issue of Political Communication
