Copyright Law and Streaming Séverine Dusollier, 2025-05-06 On the internet music films and TV shows are now just a few clicks away readily available for listening or viewing While piracy websites and file sharing software initially disrupted the entertainment economy the streaming technology has since been embraced by new operators from Spotify to Netflix providing an unprecedented abundance of cultural content Copyright laws around the world have addressed the many issues brought about by streaming services whether lawful or not ranging from copyright enforcement artists remuneration to liability of video sharing platforms and cultural diversity This book presents an extensive comparative analysis of legislative and judiciary efforts to adapt to this technological and cultural revolution

Lawyers and the Rule of Law Andrew Boon, 2022-10-20 This book examines lawyers contributions to creating and maintaining the rule of law one of the pillars of a liberal democracy It moves from the European Enlightenment to the modern day exploring the role of judges government lawyers and private practitioners in creating defining and being defined by the demands of modern society The book is divided into 4 parts representing the big themes The first part considers lawyers contribution to the growth of constitutionalism the second the formulation of roles and identities and the third the formation of values The fourth part focuses on the challenges faced by lawyers and the rule of law in the past 50 years the neoliberal period and how they challenge both conceptions of lawyers and the rule of law Each part is illustrated by defining events from the execution of Charles I through the Nuremberg Trials to the insurrection by supporters of Donald Trump in January 2021 Although the focus is on England and Wales parallel developments in other jurisdictions Australia Canada New Zealand and the USA are considered This allows analysis of lawyers historical and contemporary engagement with the rule of law in jurisdictional systems based on the Common Law Each chapter is thematic but the passage through the book is broadly chronological

Controllable Artificial Intelligence and the Future of Law Hugo Luz dos Santos, 2025-11-08 This book broaches the newly crafted concept of algorithmic dictatorship that draws on a plethora of human biases that creep into the algorithm and feeds into an automated decision that comes to the expense of citizens lives freedoms health property fair lending and credit scoring This book sheds a keen light on the slew of reasons in view of which artificial intelligence should be both interpretable and controllable as opposed to merely explainable The reason for that is straightforward the skewed data baked

into the bigoted algorithms machine biases spawns harrowing effects with which criminal justice has been grappling for a long haul drawn out Tallyingly and perhaps unsurprisingly law enforcement evinces biases that run along both gender and race lines No surprise springs from the fact that computer generated algorithms that propel predictive policing are often flagged as tools whereby racial discrimination abounds It should not therefore be pegged as flabbergasting that this sort of shady algorithmic governance is a byproduct of a grueling algorithmic dictatorship that is shaping up to crumble the foundations of Rule of Law upon which stands modern societies This is one of the key takeaways of this book Disturbingly enough brain computer interfaces are poised to be converted into shady tools to collate gauge thoughts emotions sentiments and crime related information that would be otherwise inaccessible to the governments rogue nations or unscrupulous actors prying eyes Much to our dismay an eerily dystopian world is unfolding before our very eyes This is the gist of transhumanism a byproduct of convolutional neural networks that revolve around deep learning genetic algorithms that will overhaul the current legal landscape beyond recognition This book charts the path ahead as to draw set in stone boundaries to prevent jurisdictions from careening into the chaos of genetic plutocracy that should be wished away

Criminalizing Intimate Image Abuse Gian Marco Caletti,Kolis Summerer,2024-01-12 Intimate image abuse is a recent endemic phenomenon which raises multiple legal issues and presents a significant challenge for the traditional institutions of law and criminal justice The nature of this phenomenon requires considering the traditional complexities of regulating privacy sexual offences and cybercrimes alongside the social and cultural issue of what may be considered intimate private or indeed sexual Since the harm experienced by victims of intimate image abuse is particularly serious and involves disparate legal interests criminal law has been invoked as one of the solutions but it is unclear what its role and limits should be The law s approach should avoid any moralistic attitude trying to achieve a balance between sexual autonomy and the protection of sexual privacy At the same time the needs of criminalization must be balanced with the traditional principles of criminal law Criminalizing Intimate Image Abuse strives primarily to generate new conceptual and theoretical frameworks to address the legal responses to this phenomenon by bringing together a number of scholars involved in the study of intimate image abuse over recent years This volume compares the solutions developed in different legal systems The perspective is mainly focused on the comparison between the Anglo American criminalization model and that of continental Europe but there are also overviews of the criminalization trends in Asian and Latin American countries Once the criminalization of intimate image abuse as well as its theoretical and practical limits have been established the analysis focuses on possible new legal strategies complementary or alternative to traditional criminal justice such as restorative justice Finally in order to achieve an effective safeguard for victim survivors the book deals with the role of Internet Service Providers and bystanders in preventing intimate image abuse

Digital Public Relations and Marketing Communication Trends in Africa Anne W. Njathi,Brandi Watkins,2024-06-07 The uptake of digital media platforms necessitates the need to understand how digital cultures of consumers and brands are

unfolding Despite the increase in usage and adoption of the internet in Africa there is limited information about digital marketing trends on the continent This book is among the first to present an edited collection of chapters on digital and influencer marketing authored by many who are either from or have close ties to Africa This book showcases digital marketing trends in Africa that are burgeoning at the same speed as the uptake of technology in the continent With this in mind the contributors seek to interrogate digital marketing trends in two stages the status of digital marketing on the African continent including cases from Nigeria Egypt Uganda and Kenya and an analysis of the rise of influencer marketing including cases from Nigeria and Uganda This book will explore factors driving the increase in digital media platforms in Africa as well as an analysis of the implications of the growth in digital marketing using various theoretical and methodological underpinnings to probe trends Digital Public Relations and Marketing Communication Trends in Africa provides significant implications for marketing scholars and researchers and will be relevant to those looking to understand the opportunities and challenges ahead **Michigan Law Review** ,2019 **Teaching Netflix Series in the Foreign English Classroom.**

"House of Cards" as a Mirror of the U.S. Political System Nina Lendner,2022-08-24 Examination Thesis from the year 2021 in the subject Didactics for the subject English Miscellaneous grade 1 0 University of Passau language English abstract The intention of this paper is to show possible applications of the Netflix original series House of Cards as a mirror of the U S political system which foster film literacy within teaching English as a foreign language TEFL and how learners profit from authentic texts as media literacy rather than on literary texts on intercultural topics It starts off with the didactic value of films as TEFL devices define film literacy as an aim in learning and a presentation of approaches and methods of teaching film as media literacy The special focus will be on the first season of House of Cards providing a summary of its plot as well as a complete lesson concept on teaching the political system of the United States of America in a 12th grade A level standard gymnasiale Oberstufe class This concludes example exercises to bridge the gap between the didactical value and the theoretical methods and their implementation for the use of the Netflix series in the TEFL classroom and covers a case study with analysis to the first season as well as film language and intertextual and intercultural challenges
