College Rankings Near Me Returns:

Human Capital Gary S. Becker, 2009-05-15 Human Capital is Becker's classic study of how investment in an individual's education and training is similar to business investments in equipment. Recipient of the 1992 Nobel Prize in Economic Science, Gary S. Becker is a pioneer of applying economic analysis to human behavior in such areas as discrimination, marriage, family relations, and education. Becker's research on human capital was considered by the Nobel committee to be his most noteworthy contribution to economics. This expanded edition includes four new chapters covering recent ideas about human capital, fertility, and economic growth; the division of labor; economic considerations within the family; and inequality in earnings. Critics have charged that Mr. Becker's style of thinking reduces humans to economic entities. Nothing could be further from the truth. Mr. Becker gives people credit for having the power to reason and seek out their own best destiny. *Wall Street Journal*

Handbook of the Economics of Education, 2023-01-18 The Handbook of the Economics of Education describes the research frontier in key topical areas and sets the agenda for further work. Modern analysis in the economics of education has made tremendous strides in understanding fundamental issues related to the production of human capital and the impact of varying institutional features of education systems. By bringing together some of the world's leading scholars, this volume provides a unique view of scholarship in the area. The international perspectives of the editors, Hanushek at Stanford, Machin at LSE, and Woessmann at Munich, leads to a volume with something for all researchers. Topics range from the economics of early childhood education to inequality in society to cash transfers in developing countries. Identification and evaluation of the state of the art. Clear descriptions of the meaning of existing research and the most likely avenues for the future. Insights into how policy interventions in education can help or hurt human capital outcomes.
