The Natural Truth of Christianity: Selections from the "Select Discourses" of John Smith, M.A. John Smith, 1882

Select Discourses John Smith, Simon Patrick, 1821 **Experiencing God in Late Medieval and Early Modern England** David J. Davis, 2022-06-02 Experiencing God in Late Medieval and Early Modern England demonstrates that experiences of divine revelation both biblical and contemporary were central to late medieval and early modern English religion. The book sheds light on previously underexplored notions about divine revelation and the role these notions played in shaping large portions of English thought and belief. Bringing together a wide variety of source materials from contemplative works and accounts of revelatory experiences to biblical commentaries, devotionals, and religious imagery, David J. Davis argues that in the period there was a collective representation of divine revelation as a source of human knowledge which transcended other religious and intellectual divisions. Not only did most people think that divine revelation through a ravishing encounter with God was possible, but also divine revelation was understood to be the pinnacle of religious experience and a source of pure understanding. The book highlights a common discourse running through the sources that underpinned this collective representation of how human beings experienced the divine, and it demonstrates a continual effort across large swathes of English religion to prepare an individual's soul for an encounter with the divine through different spiritual disciplines and devotional practices. Over a period of several centuries, this discourse and the larger culture of revelation provided an essential structure and legitimacy both to contemporary claims of divine revelation and the biblical precedents that contemporary experiences were modelled after. This discourse detailed the physical, metaphysical, and epistemological features of how a human being was understood to experience divine revelation, providing a means to delimit and define what happened when an individual was raptured by God. Finally, the book situates the experience of revelation within the wider context of knowledge and identifies the ways that claims to divine revelation were legitimated as well as stigmatized based on this common understanding of the experience of rapture.

Local Examinations University of Cambridge, 1879 **Perceiving the Divine through the Human Body** T. Cattoi, J. McDaniel, 2011-11-07 Cattoi and McDaniel present a selection of articles on the role of the body and the spiritual senses, our transfigured channels of sensory perceptions in the context of spiritual practice. The volume investigates this theme across a variety of different religious traditions within Christianity, Hinduism, Buddhism, and Daoism.

Cambridge Platonist Spirituality Charles Taliaferro, Alison J. Teply, 2004 This anthology collects essays, poetry, and treatises by a group of English philosophers from the Age of Reason who were devoted to the goodness of God and the spiritual importance of rationalism. These philosophers, known as the Cambridge Platonists, produced a movement in philosophical theology that flourished around Cambridge University in the seventeenth century and influenced not only Great Britain but the United States and beyond. Their school of thought emphasized the great goodness of God, the compatibility of reason and faith, an integrated life of virtue, and the deep

joy of living in concord with God This volume introduces and presents the key documents of the Cambridge Platonist movement while setting its thinkers in their historical and religious context the decades of turbulence and political crises surrounding the English Civil War **Catalogues of items for auction by Messrs.
