**The End of College Football** Nathan Kalman-Lamb, Derek Silva, 2024-10-04 In this book Nathan Kalman Lamb and Derek Silva offer an existential challenge to one of America's favorite pastimes college football Drawing on twenty five in depth interviews with former players from some of the country's most prominent college football teams Kalman Lamb and Silva explore how football is both predicated on a foundation of coercion and suffused with racialized harm and exploitation Through the stories of those who lived it the authors examine the ways in which college football must be understood as a site of harm revealing how players are systematically denied the economic value they produce for universities and offered only a devalued education in return By illuminating the plantation dynamics that make college football a particularly racialized form of exploitation the book makes legible the forms of physical sacrifice that are required the ultimate cost in health and well being and the coercion that drives players into the sport and compels them to endure such abusive conditions **Sport**

*I Hate School* John Baxter, 2013-08-22 Why Do So Many Kids HATE School A Paradigm Shift Is Necessary In Education And Now A Colledge Football Coach Offers Such Reform As coaches we have opportunities that teachers do not Coaching is a performance based working relationship that relies on the mastery of fundamentals and technique to create a competitive advantage Coaches are held accountable for an athlete s performance on and off the field This leads us very quickly to a fork in the road We can bend the rules academically and manipulate the system so that they can get through and stay eligible or we can invest deeply in them and help them technically and fundamentally so that they can become legitimate independent performers in all areas of life I see myself at the center of the paradigm shift which is based on skills and ideas not subjects and orders Study hall medication tutoring and other conventional forms of intervention aren t what we need They aren t the long term solution We need sustained performance based change that is built on fundamentals and technique If we are going to effect permanent long lasting fundamental change the paradigm shift has to begin somewhere other than in the schools Therefore parents and educators must pursue such change individually through a program like Academic Gameplan Academic Gameplan is a coaching based program that teaches the rules fundamentals and techniques to the game of school The life skills we teach are SOLID SIMPLE and REPEATABLE AGP is the ROCK upon which students are building lifelong success
