Pricing Strategies Robert M. Schindler, 2023-02-04. Written by a leading pricing researcher, this book provides a simple unified system for the setting and management of prices. The pricing procedures described are grounded in basic research and are generally applicable over products, situations, and times. The result is that students gain a deeper, more generally useful understanding of this essential aspect of business. The author demystifies the math necessary for making pricing decisions. Using clear, direct language, he explains in detail how to apply expected value, multiple regression, price elasticity, and generalized breakeven analysis to essential pricing tasks. He uses a descriptive approach to explaining mathematical techniques so that formulas can be seen as simply more detailed specifications of intuitive ideas. Used in dozens of college and MBA classes all over the world, *Pricing Strategies* is now available in a second edition. This revised edition includes updated examples and exercises as well as expanded coverage of topics such as freemium and in-app pricing, subscriptions, tipping, pay what you want pricing, pricing algorithms, and dynamic pricing. Corporate Finance and the Securities Laws Johnson Jr Charles J., Joseph McLaughlin, Anna T. Pinedo, 2023-12-08. This Seventh Edition of *Corporate Finance and the Securities Laws* is about doing deals—transactions in which companies raise funds in the U.S. and international capital markets. We have tried to retain the book's practical orientation, which we believe was responsible for the previous editions' considerable success. We do not intend this book as a complete treatise on the U.S. federal securities laws, nor do we intend it as an investor's or issuer's guide to the capital markets. Rather, we are trying to explain the legal environment in which capital markets transactions take place, just as we are trying to explain the capital markets transactions to which that environment is always trying to adapt. Highlights of the Seventh Edition include: SEC administrative proceedings and SCOTUS decision in *Axon Enterprise Inc. v. FTC* and SCOTUS agreement to hear *Jarkesy v. SEC*; Change in SEC personnel's standard disclaimer when making public statements; Second Circuit decision in *Kirschner* holding bank loans not to be securities after SEC's declining to state its views; SEC commissioner's speech raising prospect that bank loans might eventually be treated as securities; Digital assets; SEC enforcement proceedings alleging digital assets to be securities for purposes of 1933 Act registration and 1934 Act broker-dealer and securities exchange registration; SEC partial defeat in *Ripple* litigation in SDNY followed by favorable decision in *Terraform*; less than three weeks later, SEC use of Section 17(b) of 1933 Act to pursue celebrity endorsers of digital assets; prospects for federal legislation; Proposed legislation to make electronic delivery the default method of delivering
