knowledge necessary to succeed in the 21st century Impact of FinTechs on the Banking Sector. Competitor or Partner for Traditional Banks? Alice Hofmann, 2021-06-29 Bachelor Thesis from the year 2018 in the subject Business economics Banking Stock Exchanges Insurance Accounting grade 1.0 University of Applied Sciences Essen language English abstract This paper will analyse if traditional banks deal with the continuous digitization and new technology based competitors especially FinTechs as a threat or rather as a chance for their own business model Is it more likely that banks and FinTechs will link up as partners to benefit from mutual competitive advantages or will it degenerate into a battle for power and market share Furthermore why is it that small start ups can present such a threat to established banks that have been operating for years Innovative start ups revolutionized several business sectors There was Napster for the music industry Uber for the taxi industry and there are FinTechs for the financial sector FinTech is an abbreviation for Financial Technology The designation itself already gives an idea of what their business idea looks like Intelligent technologies and the continuously expanding digitization across all business sectors expands the customers needs and demands towards banks They want to take care of banking business as easily and convenient as they order goods via Amazon ask Google for the way or stream music and movies online via Spotify or Netflix FinTech has recognized that change in customer behaviour and started to build their business models based on these findings Those new innovative market entrants are present in every part of the value chain of a traditional bank offering alternative financial products and services on a purely online basis Traditional banks are therefore facing significant challenges and risks that are endangering their competitiveness *Applied Machine Learning for Data Science Practitioners* Vidya Subramanian, 2025-04-01 A single volume reference on data science techniques for evaluating and solving business problems using Applied Machine Learning ML Applied Machine Learning for Data Science Practitioners offers a practical step by step guide to building end to end ML solutions for real world business challenges empowering data science practitioners to make informed decisions and select the right techniques for any use case Unlike many data science books that focus on popular algorithms and coding this book takes a holistic approach It equips you with the knowledge to evaluate a range of techniques and algorithms The book balances theoretical concepts with practical examples to illustrate key concepts derive insights and demonstrate applications In addition to code snippets and reviewing output the book provides guidance on interpreting results This book is an essential resource if you are looking to elevate your understanding of ML and your technical capabilities combining theoretical and practical coding examples A basic understanding of using data to solve business problems high school level math and statistics and basic Python coding skills are assumed Written by a recognized data science expert Applied Machine Learning for Data Science Practitioners covers essential topics including Data Science Fundamentals that provide you with an overview of core concepts laying the foundation for understanding ML Data Preparation covers the process of framing ML problems and preparing data and features for modeling ML Problem Solving introduces you to a range of ML algorithms including Regression Classification Ranking Clustering Patterns Time

Series and Anomaly Detection Model Optimization explores frameworks decision trees and ensemble methods to enhance performance and guide the selection of the most effective model ML Ethics addresses ethical considerations including fairness accountability transparency and ethics Model Deployment and Monitoring focuses on production deployment performance monitoring and adapting to model drift Modern Monopolies Alex Moazed, Nicholas L. Johnson, 2016-05-31 In Modern Monopolies Alex Moazed and Nicholas L Johnson tell the definitive story of what has changed what it means for businesses today and how managers entrepreneurs and business owners can adapt and thrive in this new era What do Google Snapchat Tinder Amazon and Uber have in common besides soaring market share They re platforms a new business model that has quietly become the only game in town creating vast fortunes for its founders while dominating everyone s daily life A platform by definition creates value by facilitating an exchange between two or more interdependent groups So rather than making things they simply connect people The Internet today is awash in platforms Facebook is responsible for nearly 25 percent of total Web visits and the Google platform crash in 2013 took about 40 percent of Internet traffic with it Representing the ten most trafficked sites in the U S platforms are also prominent over the globe in China they hold the top eight spots in web traffic rankings The advent of mobile computing and its ubiquitous connectivity have forever altered how we interact with each other melding the digital and physical worlds and blurring distinctions between offline and online These platform giants are expanding their influence from the digital world to the whole economy Yet few people truly grasp the radical structural shifts of the last ten years *The Michigan Journal* ,2012 Music Licensing United States.
