Twitter Viral Challenge How To:

Social Media for Government Staci Zavattaro, Thomas Bryer, 2016-03-10 Social media is playing a growing role within public administration and with it there is an increasing need to understand the connection between social media research and what actually takes place in government agencies Most of the existing books on the topic are scholarly in nature often leaving out the vital theory practice connection This book joins theory with practice within the public sector and explains how the effectiveness of social media can be maximized The chapters are written by leading practitioners and span topics like how to manage employee use of social media sites how emergency managers reach the public during a crisis situation applying public record management methods to social media efforts how to create a social media brand how social media can help meet government objectives such as transparency while juggling privacy laws and much more For each topic a collection of practitioner insights regarding the best practices and tools they have discovered are included Social Media for Government responds to calls within the overall public administration discipline to enhance the theory practice connection giving practitioners space to tell academics what is happening in the field in order to encourage further meaningful research into social media use within government

At the Crossroads: Lessons and Challenges in Computational Social Science Javier Borge-Holthoefer, Yamir Moreno, Taha Yasseri, 2016-11-29 The interest of physicists in economic and social questions is not new for over four decades we have witnessed the emergence of what is called nowadays sociophysics and econophysics vigorous and challenging areas within the wider Interdisciplinary Physics With tools borrowed from Statistical Physics and Complexity this new area of study have already made important contributions which in turn have fostered the development of novel theoretical foundations in Social Science and Economics via mathematical approaches agent based modelling and numerical simulations From these foundations Computational Social Science has grown to incorporate as well the empirical component aided by the recent data deluge from the Web 2 0 and 3 0 closing in this way the experiment theory cycle in the best tradition of Physics

The Legal Challenges of Social Media David Mangan, Lorna E. Gillies, 2017-06-30 Social media enables instant access to individual self expression and the sharing of information Social media issues are boundless permeating distinct legal disciplines The law has struggled to adapt and for good reason how does the law regulate this medium over the public private law divide This book engages with the legal implications of social media from public and private law perspectives and outlines how the law in various legal sub disciplines and with varying success has endeavoured to adapt existing tools to social media

Social Warming Charles Arthur, 2021-06-24 Witty rigorous and as urgent as a fire alarm Dorian Lynskey Cooly prosecutorial Guardian Nobody meant for this to happen Facebook didn't mean to facilitate a genocide Twitter didn't want to be used to harass women YouTube never planned to radicalise young men But with billions of users these platforms need only tweak their algorithms to generate more engagement In so doing they bring unrest to previously settled communities and erode our relationships Social warming has happened gradually as a by product

of our preposterously convenient digital existence But the gradual deterioration of our attitudes and behaviour on and offline this vicious cycle of anger and outrage is real And it can be corrected Here s how
