Quantitative Methods In Practice Readings From Ps:

Quantitative Methods in Practice David A. Rochefort, 2005-11-02 Every methods course needs to provide students with careful explanations and step by step guidance on research design and techniques But how many illustrations are you offering of particular methods in actual research situations David Rochefort answers this need with a volume of political science readings that helps students take their knowledge of abstract concepts and integrate it into the broader context of social science research and analysis A reliable source for high quality yet concise empirical studies that draws from all sub fields of political science PS offers the perfect material to supplement your current text Rochefort introduces each selection with a substantial headnote to give students context for the type of research and statistical analysis the article utilizes He then provides a set of questions at the end of each reading that focus on four topics Why was this research needed How was this research done What are the findings What does it mean Rochefort also showcases an Author s Retrospective that gives scholars an opportunity to speak directly to students about what they want readers to learn from their article as well as how their perspective on their research has changed since the time of its original publication An introduction and conclusion speak to the demands of learning statistics in action and a Topical Guide in the front of the book points students to readings that focus on particular skills and techniques covering both research methods questionnaire design and original data collection for instance and quantitative techniques confidence intervals graphing crosstabulation and regression to name a few

Handbook of Reading Disability Research Anne McGill-Franzen, Richard Allington, 2010-09-17 Bringing together a wide range of research on reading disabilities this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective Emphasizing that learning to read proficiently is a long term developmental process involving many interventions of various kinds all keyed to individual developmental needs it addresses traditional questions What is the nature or causes of reading disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to instruction and schooling The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers
