Artificial Intelligence, Ethics, and the Digital Society: Pathways to Sustainable Development Anju Beniwal, 2025-06-25 In recent years the rapid advancement of technology particularly Artificial Intelligence AI and digital innovations has fundamentally transformed every dimension of human society These developments have not only reshaped our economies and lifestyles but have also raised critical ethical environmental and sociological questions This edited volume brings together a diverse range of scholarly contributions that explore the intersections between technological progress sustainable development and social well being The chapters included in this volume reflect contributions from scholars and researchers across India encompassing disciplines such as Sociology History Economics Political Science and Liberal Education The themes range from the role of AI in everyday life and the impact of smart cities on environmental management to localized frameworks of sustainability the digital transformation of food systems and the

media's influence on social awareness campaigns. Special emphasis is placed on how Artificial Intelligence and digital technologies can both aid and challenge the achievement of Sustainable Development Goals (SDGs). Simultaneously, the ethical frameworks surrounding these innovations are explored to ensure technology serves humanity without compromising core societal values. This book also examines grassroots realities and region-specific concerns such as sustainable practices in Assam, the digitalization of India's organic food sector, and menstrual taboos across cultures, providing an inclusive and grounded understanding of the diverse sociocultural contexts in which sustainability must be achieved. I hope that this volume serves not only as a valuable academic resource but also as a catalyst for interdisciplinary dialogue and policy innovation. It is my belief that such collaborative and ethical inquiry is essential to building a more just, equitable, and sustainable society in the face of the 21st century's challenges. I am grateful to all the contributors who have enriched this volume with their research and insights. Their dedication to critical inquiry and commitment to social change is what makes this collection both timely and transformative.

Proceedings of the 4th International Conference on Language, Art and Cultural Exchange (ICLACE 2023) Bootheina Majoul, Guiyun Guan, Nick Groom, 2023-08-28. This is an open access book. The 4th International Conference on Language, Art and Cultural Exchange (ICLACE 2023) will be held on May 19-21, 2023, in Hangzhou, China. Culture includes language, which is a special cultural phenomenon. For culture, most scholars agree that it mainly includes two aspects: material culture and spiritual culture. Specific examples to show cultural phenomena will be of great benefit to our understanding. Some examples of material culture are listed here: Indian women wear saris, Japanese like to eat sashimi, and Chinese like to shake hands when meeting each other. These are various manifestations of material culture in different nations. Language is the mode of transmission of culture. Language is one of the most important ways of thinking and cultural exchange of human beings, which is actually the manifestation of the formation and transmission of culture. Because of thinking, human beings gradually create culture in the continuous social practice and then spread their national culture to each other in the continuous language exchange. Since ancient times, art and culture have been going hand in hand and complementing each other. On the one hand, art is an important connotation and component of culture, and the progress of art is the driving force of cultural development. On the other hand, culture is the source and content of art, and the prosperity of culture is the key to improve the level of art. On the other hand, culture is the source and content of art, and the prosperity of culture is the key to improving the level of art. Therefore, whether it is culture or art, it is not only a symbol of an era, a representation of people's life style, but also a guide to the direction of social development. The relationship between language, art, and cultural communication is a hot topic for many scholars to study at present. Therefore, an academic conference is set up for authors to discuss related research issues and exchange new ideas, hoping that scholars can burst out more excellent and valuable ideas in this conference. ICLACE 2023 is to bring together innovative academics and industrial experts in the field of Literature, Art, and Cultural Exchange research to a common forum. The primary goal of the

conference is to provide a platform for scientists scholars and engineers from all over the world to present ongoing research activities fostering the research and business relations and promoting scientific information interchange and cooperation between all the participants FFIT 2023 William Yeoh,Wan Mohd Nasir Wan Kadir,2023-10-26 This book contains the proceedings of the 2nd International Conference on Financial Innovation FinTech and Information Technology FFIT 2023 held in Chongqing China from July 7th to 9th 2023 FFIT 2023 focuses on Economic statistics under big data Financial risk control Economic Modeling and Software Engineering Accounting and Financial Information Systems Innovative Supply Chain Financial Services and other fields The aim of the conference is to provide a platform for experts scholars engineers technicians and technical R D personnel to share scientific research achievements and cutting edge technologies understand academic development trends expand research ideas strengthen academic research and discussion and promote the industrialization cooperation of academic achievements We hope that this conference will continue to be held in the coming years making it an ideal platform for people to share views and experiences in financial innovation and economic development and related areas We would also like to thank the invited speakers for their valuable contributions and for sharing their perspectives during their speeches **Revolutionizing Communication** Raquel V.
