Peter Stein: Germany's Leading Theatre Director Michael Patterson, 1982-01-29 First published in 1981 Michael Patterson's was the first book in any language to be devoted to the work of Germany's leading theatre director Peter Stein's thoughtful and critical approach to a variety of dramatic texts from Irish comedy to German classics where his reputation largely rests has resulted in a range of different acting and formal styles and some major textual adaptations The rehearsing performance and reception of these are thoroughly and vividly recreated here from interviews and archives and in the first hand account of the workings of the theatre Stein made his own the Schaubühne in West Berlin Patterson discusses the apparent contradictions between the Schaubühne's original ideals as a model of socialist theatre and its present situation as one of the most highly subsidized stages in Western Europe Many productions are illustrated by photographs and imaginative reconstructions of particular scenes *Im Spiegel der Theatergeschichte. Theatre Is More Beautiful Than War Marvin Carlson, 2009-09. In almost every area of production, German theatre of the past forty years has achieved a level of distinction unique in the international community. This flourishing theatrical culture has encouraged a large number of outstanding actors, directors, and designers, as well as video and film artists. The dominant figure throughout these years, however, has remained the director. In this stimulating and informative book, noted theatre historian Marvin Carlson presents an in-depth study of the artistic careers, working methods, and most important productions of ten of the leading directors of this great period of German staging. Beginning with the leaders of the new generation that emerged in the turbulent late 1960s—Peter Stein, Peter Zadek, and Claus Peymann—all still major figures today, Carlson continues with the generation that appeared in the 1980s, particularly after reunification: Frank Castorf, Anna Viebrock, Andrea Breth, and Christoph Marthaler, and concludes with the leading directors to emerge after the turn of the century: Stefan Pucher, Thomas Ostermeier, and Michael Thalheimer. He also provides information not readily available elsewhere in English on many of the leading actors and dramatists, as well as the designers whose work, much of it for productions of these directors, has made this last half century a golden age of German scenic design. During the late twentieth century, no country produced so many major theatre directors or placed them so high in national cultural esteem as Germany. Drawing on his years of regular visits to the Theatertreffen in Berlin and other German productions, Carlson will captivate students of theatre and modern German history and culture with his provocative, well-illustrated study of the most productive and innovative theatre tradition in Europe.

Brecht and Political Theatre Laura Bradley, 2006-06-29. This production history of *The Mother* provides substantial new insights into Bertolt Brecht's theatre and drama, his impact on political theatre, and the relationship between text, performance, and politico-cultural context. As the only play which Brecht staged in the Weimar Republic during his exile and in the GDR, *The Mother* offers a unique opportunity to compare his theatrical practice in contrasting settings and at different points in his career. Through detailed analysis of original archival evidence, Bradley shows how Brecht became far more sensitive to his spectators' political views and cultural expectations, even making major tactical concessions in his 1951 production at the Berliner Ensemble. These compromises indicate that his mature staging should not be regarded as definitive for it was tailored to a unique and delicate situation. *The Mother* has appealed strongly to politically committed theatre practitioners both in and beyond Germany. By exploiting the text's generic hybridity and the interplay between Brecht's epic and dramatic elements, directors have interpreted it in radically different ways. So although Brecht's 1951 production stagnated into an affirmative GDR heritage piece, post-Brechtian directors have used *The Mother* to promote their own political and theatrical concerns, from anti-authoritarian theatre to reflections on the

legacies of state Socialism Their ideological and theatrical subversion have helped Brecht's text to outlive the political system that it came to uphold **In Contact With the Gods?** Maria M.
