Phantom Politics Campaigning In California:

The Spectacle of U.S. Senate Campaigns Kim Fridkin Kahn, Patrick J. Kenney, 2021-03-09 This book offers a bold comprehensive look at how campaigns actually work from the framing of issues to media coverage to voters decisions In so doing it challenges the common wisdom that campaigns are a noisy symbolic aspect of electoral politics in which the outcomes are determined mainly by economic variables or presidential popularity Campaigns the authors argue do matter in the political process Examining contested U S Senate races between 1988 and 1992 Kim Kahn and Patrick Kenney explore the details of the candidates strategies and messages the content tone and bias of the media coverage and the attitudes and behaviors of potential voters Kahn and Kenney discover that when the competition between candidates is strong political issues become clearly defined and the voting population responds Through a mix of survey data content analysis and interviews the authors demonstrate how competition influences serious political debates in elections Candidates take stands and compare themselves to their opponents The news media offer more coverage of the races presenting evaluations of the candidates positions critiques of their political careers and analyses of their campaign ads In response the voters pay closer attention to the rhetoric of the candidates as they learn more about central campaign themes often adjusting their own voting criteria The book concentrates on Senate races because of the variance in campaign strategy and spending media coverage and voter reactions but many of the findings apply to elections at all levels [The Dynamics of California Government and Politics](#) Harvey, Richard B. Harvey, 1990 *Phantom Politics* Mary Ellen Leary, 1977 [Framing American Politics](#) Karen Callaghan, Frauke Schnell, 2005-07-10 Most issues in American political life are complex and multifaceted subject to multiple interpretations and points of view How issues are framed matters enormously for the way they are understood and debated For example is affirmative action a just means toward a diverse society or is it reverse discrimination Is the war on terror a defense of freedom and liberty or is it an attack on privacy and other cherished constitutional rights Bringing together some of the leading researchers in American politics *Framing American Politics* explores the roles that interest groups political elites and the media play in framing political issues for the mass public The contributors address some of the most hotly debated foreign and domestic policies in contemporary American life focusing on both the origins and process of framing and its effects on citizens In so doing these scholars clearly demonstrate how frames can both enhance and hinder political participation and understanding *Not So Golden After All* Larry N. Gerston, 2012-03-20 Quality public education modern highway systems and reasonably priced housing these are just some of the qualities that once made California one of the most desirable places to live Just a few decades later the state finds itself with an education system that is failing its citizens one of the highest unemployment rates in the nation and a quickly evaporating dream of home ownership Illustrating each step of the breakdown that led to its current state of dysfunction *Not So Golden After All The Rise and Fall of California* provides insight into a system gone amuck It addresses complicated topics

in an engaging manner to help the public and leaders alike understand how to make policies that balance expectations with outcomes. Key political themes covered include disconnected institutions, perpetually unbalanced budgets, immigration voter ignorance, interest group influence, and dysfunctional institutions. Investigating the gridlock that has become all too common within the state's legislature, the book demonstrates the impact of the state's inability to generate sufficient revenue, particularly for public education and an under-trained workforce. Highlights the problems created by poor land use planning from suburban sprawl and government waste to inefficient use of agricultural land. Examines how interest groups have been able to wrest control of the processes that were created to keep them in line. Identifies the duplication of efforts and other inefficiencies at the state and local levels. Author Larry Gerston leaves no stone unturned in his discussion of California's economy, position on the Pacific Rim, cultural diversity, land and water issues, and its relationship with the federal government. He examines the state's infrastructure, natural resources, immigration issues, education, finance, healthcare, civil rights, planning, and development, security laws, political parties, and power structures to provide civic leaders and policy makers with the understanding required to restore the sheen to this once glistening paradise. The Contra Costa Times discussed Larry Gerston's recent Commonwealth Club lecture in a May 17, 2012 article. Read an interview with Larry Gerston in The Mercury News.

The Browns of California Miriam Pawel, 2018-09-04. Miriam Pawel's fascinating book illuminates the sea change in the nation's politics in the last half of the 20th century. New York Times Book Review, California Book Award Gold Medal Winner, Finalist for the Los Angeles Times Book Prize, A Los Angeles Times Bestseller, San Francisco Chronicle's Best Books of the Year List, Publishers Weekly Top Ten History Books for Fall, Berkeley's Best Books of the Year, Shortlisted for NCIBA Golden Poppy Award. A Pulitzer Prize-winning journalist's panoramic history of California and its impact on the nation from the Gold Rush to Silicon Valley, told through the lens of the family dynasty that led the state for nearly a quarter century. Even in the land of reinvention, the story is exceptional. Pat Brown, the beloved father who presided over California during an era of unmatched expansion; Jerry Brown, the cerebral son who became the youngest governor in modern times and then returned three decades later as the oldest. In *The Browns of California*, journalist and scholar Miriam Pawel weaves a narrative history that spans four generations from August Schuckman, the Prussian immigrant who crossed the Plains in 1852 and settled on a northern California ranch, to his great grandson Jerry Brown, who reclaimed the family homestead one hundred forty years later. Through the prism of their lives, we gain an essential understanding of California and an appreciation of its importance. The magisterial story is enhanced by dozens of striking photos, many published for the first time. This book gives new insights to those steeped in California history, offers a corrective for those who confuse stereotypes and legend for fact, and opens new
