Helmut K. Anheier, Stefan Toepler, 2009-11-24 Recently the topic of civil society has generated a wave of interest and a wealth of new information Until now no publication has attempted to organize and consolidate this knowledge The International Encyclopedia of Civil Society fills this gap establishing a common set of understandings and terminology and an analytical starting point for future research Global in scope and authoritative in content the Encyclopedia offers succinct summaries of core concepts and theories definitions of terms biographical entries on important figures and organizational profiles In addition it serves as a reliable and up to date guide to additional sources of information In sum the Encyclopedia provides an overview of the contours of civil society social capital philanthropy and nonprofits across cultures and historical periods For researchers in nonprofit and civil society studies political science economics management and social enterprise this is the most systematic appraisal of a rapidly growing field **Handbook on Corporate Foundations** Lonneke

Arnove, 1982-09-22 Philanthropy and Cultural Imperialism is intended as a source book on the origins workings and consequences of modern general purpose foundations The text encompasses the activities of foundations principally Carnegie Rockefeller and Ford in the production of culture and the formation of public policy Particular attention is given to the policies of the big foundations in the fields of education and social science research The authors write from the perspectives of history sociology comparative education and educational policy studies Their chapters are based on original research While the contributors do not share a uniform ideological framework they do have in common a structural point of view they examine foundations with regard to their functioning in society They analyze the implications of foundations organizational characteristics modus operandi and substantive decisions for social control or social change A distinguishing feature of Philanthropy and Cultural Imperialism is its systematic critical analysis of the sociopolitical consequences of these powerful institutions A central thesis is that foundations like Carnegie Rockefeller and Ford have a corrosive influence on a democratic society they represent relatively unregulated and unaccountable concentrations of power and wealth which buy talent promote causes and in effect establish an agenda of what merits society's attention **The State of Philanthropy in Central America** María Eugenia Bozzoli de Wille, 1993
