investigated to figure out how atlases cover the geographical interest of schools and everyday life The results show that the present atlases need to be optimized A standard table of content was written to give an overview of the content an optimal atlas of the present time could have Several maps with interesting and good contents are presented further developed if necessary and discussed This work should help to enable the next steps to develop atlases on the way towards their optimal state www.humgeo.unibas.ch www.reliefs.ch kartopro.htm **The Academy** ,1883 **The Educational Times, and Journal of the College of Preceptors** ,1897 *Educational Times* ,1889 [Education Outlook](#) ,1904 **Educational Times and Journal of the College of Preceptors** ,1889 **British Museum** British Museum.
