A Quest for Life Ian L. McHarg, 1996-04-27 Show me any civilization that believes that reality exists only because man can perceive it that the cosmos was erected to support man on its pinnacle that man is exclusively divine and then I will predict the nature of his cities and its landscapes the hot dog stands the neon shill the ticky tacky houses the sterile core the mined and ravaged countryside This is the image of anthropocentric man He seeks not unity with nature but conquest yet unity he finds when his arrogance and ignorance are stilled and he lies dead under the greensward Ian L McHarg Multiply and Subdue the Earth 1969 No living American has done more to usher the gentle science of ecology out of oblivion and into mainstream thought than Ian McHarg a teacher philosopher designer and activist who changed the way we view and shape our environment From the foreword by Stewart L Udall Published in cooperation with the Center for American Places Harrisonburg Virginia *A Quest for Life* is the autobiography of a man who stands alongside Rachel Carson Lewis Mumford and Aldo Leopold as one of the giants of the environmental movement In a robust and singular voice Ian McHarg recounts the story of a life that has foreshadowed and eventually shaped environmental consciousness in the twentieth century Along the way we meet prominent figures in the environmental movement the design fields and the government from Walter Gropius to Lady Bird Johnson all presented in rich and telling anecdotes Early in *A Quest for Life* McHarg presents us with an arresting image Describing the view from his boyhood home on the outskirts of Glasgow he tells us that in one direction he could see the industrial miasma of smokestacks tenements and treeless streets and in another the glories of the Scottish countryside I was born and bred he writes on a fulcrum with two poles city and countryside Confronted with such a stark contrast the man who was to become the founder of ecological planning began at an early age to turn literally from inhumane urban development and toward the beauty and power of Nature Each chapter of this book illuminates key stages in McHarg's life and in the evolution of his environmental awareness We see him as a youth standing on a hillside beside the impressive Donald Wintersgill who with the wave of his cane lays out an entire village complete with lakes and forests and thus introduces the astonished McHarg to the profession of landscape architecture In some of the bloodiest battles of the Second World War he witnesses the magnitude of human destructive capability Later when he faces a crisis of conscience over his religious training and its exhortation to gain dominion over life and subdue the earth he begins to develop a deep spiritual appreciation for the sanctity of Nature itself His training as a designer and planner in the Modernist Bauhaus tradition with its neglect of the environment his bouts with tuberculosis that showed him the link between public health and city planning his famous Man The Planetary Disease speech before powerful industrialists all stand as emblematic of battles that are still being fought today *A Quest for Life* also chronicles the many triumphs in McHarg's career It offers fresh insight into the revolutionary design method behind his groundbreaking book *Design with Nature* and explores the development of geographical information systems We learn firsthand about his work on the celebrated regional plans for Denver and the

Twin Cities as well as the Woodlands new town project His most enduring contribution however may prove to be his four decades of teaching at the University of Pennsylvania Through the generations of landscape architects designers and planners he taught there his influence has spread around the world and into the future As the compelling first person story of a remarkable individual who not only manned the barricades against environmental destruction but helped lay the foundation for the barricades themselves *A Quest for Life* is must reading for landscape architects designers conservationists planners and others concerned with the preservation of our communities and the natural environment *Maria Teresa Parpagliolo Shephard (1903-1974)* Sonja Dümpelmann, 2004-07-09 Maria Teresa Parpagliolo Shephard Parpagliolo gehört zu den wenigen Frauen ihrer Generation in Europa und Amerika die in dem stark von Männern dominierten Arbeitsgebiet der Garten und Landschaftsarchitektur tätig wurden Durch eine kritische Auseinandersetzung mit Parpagliolos Werken und ihren Produktionsbedingungen wird ihr Schaffensprozess untersucht und ihre Bedeutung für die Entwicklung der Gartenkultur auf theoretischer praktischer und institutioneller Ebene in Italien beurteilt Die Kontextualisierung ihrer Arbeiten leistet zudem einen Beitrag zum Verständnis der damaligen und heutigen Situation der italienischen Landschaftsarchitektur Parpagliolos Lebenslauf und ihre Karriere als Garten und Landschaftsarchitektin werden rekonstruiert Im Ergebnis zeigt die Arbeit dass Parpagliolo in mehrfacher Hinsicht als Pionierin gelten kann Als Frau in der Profession und als Garten und Landschaftsarchitektin in Italien Ihre Bedeutung für die Entwicklung der Gartenkultur in Italien liegt dabei weniger in der Qualität ihrer einzelnen Werke als vielmehr in ihren Impulsen für die Entstehung eines stärkeren Bewusstseins für Gärten Gartendenkmalpflege Landschaften und der Umwelt im allgemeinen Als Pionierin einer neuen Gartenarchitektur in Italien trug sie zur Belebung der vernachlässigten Gartenarchitektur bei und erschloss dort vor und nach dem Zweiten Weltkrieg neue Arbeitsgebiete für Garten und Landschaftsarchitekten Durch vielfältige Aktivitäten war sie sowohl in Italien als auch in England maßgeblich an der Etablierung und Verbreitung einer professionell organisierten Garten und Landschaftsarchitektur beteiligt Sie vermittelte zwischen den Gartenkulturen verschiedener Länder und zwischen Tradition und Moderne und war ausserdem eine Wegbereiterin der um 1970 in Italien verstärkt einsetzenden Umweltschutzbewegung *Charleston and Monk's House* Nuala Hancock, 2012-06-27 The interwoven biographies of Virginia Woolf and Vanessa Bell and the houses they lived in What can we learn from a commemorative house What biographical narratives emerge as we travel through the spaces of another's home This new study unveils the revelatory potential of the house museum to inform and enrich our understanding of the lived past of its former inhabitants It focuses on the emotionally textured interiors of Charleston and Monk's House the literary artistic house museums of Virginia Woolf and Vanessa Bell seeking out traces of their shared biography Fresh perspectives unfold on Woolf's and Bell's sisterhood and their continuous artistic exchange as we shadow their daily lives through the richly painted rooms and atmospheric gardens of their former Sussex homes Discover these celebrated artists in a different light animated moving handling the tools of their related arts and brought vividly to life
