Fatherhood in the Borderlands Domino Renee Perez, 2022-12-06 A contemplative exploration of cultural representations of Mexican American fathers in contemporary media

Classical Antiquity and the Cinematic Imagination Martin M. Winkler, 2024-02-22 This book aims to enhance our appreciation of the modernity of the classical cultures and conversely of cinema's debt to ancient Greece and Rome. It explores filmic perspectives on the ancient verbal and visual arts and applies what is often referred to as pre-cinema and what Sergei Eisenstein called cinematism that paintings, statues, and literature anticipate modern visual technologies. The motion of bodies depicted in static arts and the vividness of epic ecphrases point to modern features of storytelling while Plato's Cave Allegory and Zeno's Arrow Paradox have been related to film exhibition and projection since the early days of cinema. The book additionally demonstrates the extensive influence of antiquity on an age dominated by moving image media as with stagings of Odysseus' arrow shot through twelve axes or depictions of the Golden Fleece. Chapters interpret numerous European and American silent and sound films and some television productions and digital videos.

CinemaTexas Notes Louis Black, Collins Swords, 2018-02-26 Austin's thriving film culture, renowned for international events such as SXSW and the Austin Film Festival, extends back to the early 1970s when students in the Department of Radio Television Film at the University of Texas at Austin ran a film programming unit that screened movies for students and the public. Dubbed CinemaTexas, the program offered viewers a wide variety of films, old and new, mainstream, classic, and cult, at a time when finding and watching films after their first run was very difficult and prohibitively expensive.
