Philips Road Map Scotland:

Philip's Navigator Scotland George Philip & Son, 2012-04-01 Philip's Navigator Scotland is part of a series of Navigator regional road atlases. The Navigator maps provide highly detailed coverage of the region's road network including minor country lanes and rural tracks. In this atlas, much of the Central Lowlands and Scottish Borders are shown at 1.5 miles to 1 inch, while the rest of Scotland is shown at 3 miles to 1 inch. There is an abundance of other detail including hundreds of individually named farms, houses, and hamlets. Also shown are airports, airfields, stations, ferries, canals, marinas, and a wide range of places of interest. There are also useful details of many services that may be needed while travelling, such as tourist information centres. The atlas has a comprehensive index and includes indexed town plans of major regional centres. The front of the atlas contains a 15-page guide to regional leisure with full details of places of interest such as castles, houses, cathedrals, and museums, plus guides to nature reserves, parks, and gardens, and listings of a wide variety of activities from abseiling to yachting. The atlas is designed with the leisure user particularly in mind and is ideal for touring with its large scale and wealth of travel information. The exceptional detail also makes the atlas ideal for local business use, such as planning and delivery driving.

The mapping clearly marks service areas, roundabouts, and multi-level junctions, and in rural areas distinguishes between roads above and below 4 metres wide, a boon for drivers of wide vehicles. Across the channel, a full-page map shows Calais and Boulogne, and a double-page map shows the full extent of the northern French coast including all ferry ports. The atlas also includes route planning maps, M25 and M60 maps, full listings of fixed location speed cameras, distance table, 12 large-scale city approach maps with named arterial roads, 55 extra detailed town and city plans, airport and port plans, and unique cross-Channel maps of Northern France. Main map scale 3 miles to 1 inch.
